**INSTRUCTIONS TO CANDIDATES**

Use black ink or black ball-point pen.

Write your name, centre number and candidate number in the spaces at the top of this page.

**INFORMATION FOR CANDIDATES**

Questions in this paper are based on the context of *Dragon Day Nursery*.

The exam consists of two parts:

*Time allowed for Part A: 1 hour*

- The Tender (40 marks)

*Time allowed for Part B: 2 hours*

- The Recommendation (20 marks)
- The Implementation (40 marks)

A short break is permitted between parts A and B.

Quality of Written Communication will be assessed in the response to Question 7.

# INTRODUCTION

## Dragon Day Nursery

---

### INVITATION TO TENDER

Dragon Day Nursery looks after children aged from three months to four years. The nursery is owned by Mr Jack and Mrs Jane Jones who employ a manager and several qualified nursery nurses. Children attend the nursery every day between 7:00am and 6:30pm. Children can attend a morning session, an afternoon session or both.

The business is expanding and they are having new premises built.

There will be an office and three separate sections for the:

- Under four year olds
- Under two year olds
- Under one year olds

The nursery nurses work in one of the three sections but can move between sections. The administration will take place in the new Office.

Parents have to book the days their children will attend the nursery before September and inform the nursery of any changes in the attendance pattern at least one month in advance.

Parents are sent an invoice every month which has to be paid in full before the start of the next month.

Dragon Day Nursery employs an accountant who visits the nursery one afternoon a week to check the accounts and invoices.

Dragon Day Nursery has decided to obtain tenders for the contract to design and install a network system to enable electronic communication in their new building.

As an IT consultant specialising in network solutions, you have been invited to tender for this contract and have this opportunity to demonstrate your subject expertise by completing a number of tasks.

---

*“Hello, I am the owner of Dragon Day Nursery. We need a network to operate our business. I would like to know more about the characteristics and arrangement of different network topologies.”*

1. Unlike star topologies, ring and bus topologies are not in common use but all have positive characteristics.

(a) State **one** benefit of a ring network compared to a bus network. [1]

.....

.....

.....

(b) State **one** benefit of a bus network compared to a star network. [1]

.....

.....

.....

(c) State **three** benefits of a star network compared to other network topologies. [3]
