

GCE MARKING SCHEME

SUMMER 2016

**SPANISH SN2
1362/01**

INTRODUCTION

This marking scheme was used by WJEC for the 2016 examination. It was finalised after detailed discussion at examiners' conferences by all the examiners involved in the assessment. The conference was held shortly after the paper was taken so that reference could be made to the full range of candidates' responses, with photocopied scripts forming the basis of discussion. The aim of the conference was to ensure that the marking scheme was interpreted and applied in the same way by all examiners.

It is hoped that this information will be of assistance to centres but it is recognised at the same time that, without the benefit of participation in the examiners' conference, teachers may have different views on certain matters of detail or interpretation.

WJEC regrets that it cannot enter into any discussion or correspondence about this marking scheme.

GCE Spanish SN2
Summer 2016 Mark Scheme
Principles of marking

In general, please mark clearly in **red** in the conventional way, i.e. underlining errors, querying unclear Spanish, Spanglish, words based on English like 'promotar', 'providar', etc. Put your marks clearly in right-hand margin

Q.1 True/False questions – listening text

Total mark for this question is 8. 1 mark awarded for successful choice of Verdadero box. NO mark awarded for just ticking Falso box – mark awarded here only for comprehensible correction of an incorrect statement; a misspelling that does not impede communication/meaning is usually tolerated. If a statement is corrected accurately without 'crossing' the Falso box, the mark can still be awarded.

Q.2 Choice of words in grammar gap filling – listening text

The total mark for this question is 5. **The answer MUST be written, not just underlined or circled.** The answer must be free from any grammatical error and **must be copied correctly.** No errors will be tolerated, including accents and minor spelling errors.

Q.3 (a) Five correct statements (according to information given in reading text)

Total number of marks for this part question is 5. If more than the required number of boxes is crossed, a mark will be deducted from the total number of correct answers – so if 6 boxes instead of 5 were 'crossed' and the total number of correct answers was 4, one mark would be deducted leaving 3 marks. If too few answers are indicated, this must be shown clearly when marking – put a line clearly through boxes.

(b) Comprehension answers in Spanish on reading text

The total number of marks for this part question is 4. **No marks will be awarded for a 'straight lift'.** The answer must be a correct grammatical and semantic answer to the question asked. English or Welsh words used in the answer will mean that a mark will not be awarded for that particular section. Answers must be comprehensible but minor errors not affecting meaning will be tolerated.

(c) Comprehension gap-filling from a choice of words/phrases based on reading text

The total number of marks for this part question is 15. The **answer MUST be written**, not just underlined or circled. Words from the list **must** be copied correctly. No errors will be tolerated including accents and minor spelling errors.

Q.4 Gap-filling - reading texts (grammatical accuracy)

The total number of marks for this question is 10. The **answer MUST be written**, not just underlined or circled. Answers to gap-filling must be copied correctly. No errors will be tolerated, including accents and minor spelling errors.

Q.5 Translation into English

The total number of marks for the translation is 16. All parts of a sentence must be incorporated into the answer; a mark cannot be awarded for a section if one word or its meaning is missing. The translation must make sense in English or Welsh. A ‘free’ translation will be acceptable as long as every part of the sentence has been assimilated fully into the meaning. Spanish words will only be accepted if in common English usage (e.g. *fiesta*, *machismo*, *patio*, but not *bachillerato*) and the mark for that particular section cannot be awarded. An explanation should be given for a word like *botellón* or *bachillerato*.

Q.6 Essays

The total number of marks for this question is 35. Show your marks clearly at the end of the essay. The essay must answer all parts of the question set. There **MUST** be evidence that you have looked at **ALL** of the essay. Overlong essays may be self-penalising under quality of response but you must **NOT** draw a line and stop marking. Material taken verbatim from the reading passages and not manipulated will not be credited and will not count in the word count.

Banded mark schemes

Banded mark schemes are divided so that each band has a relevant descriptor. The descriptor for the band provides a description of the performance level for that band. Examiners should first read and annotate a learner’s answer to pick out the evidence that is being assessed in that question. Once the annotation is complete, the mark scheme can be applied.

This is done as a two stage process.

Stage 1 – Deciding on the band

When deciding on a band, the answer should be viewed holistically. Beginning at the lowest band, examiners should look at the learner’s answer and check whether it matches the descriptor for that band. Examiners should look at the descriptor for that band and see if it matches the qualities shown in the learner’s answer. If the descriptor at the lowest band is satisfied, examiners should move up to the next band and repeat this process for each band until the descriptor matches the answer.

If an answer covers different aspects of different bands within the mark scheme, a ‘best fit’ approach should be adopted to decide on the band and then the learner’s response should be used to decide on the mark within the band. For instance if a response is mainly in band 2 but with a limited amount of band 3 content, the answer would be placed in band 2, but the mark awarded would be close to the top of band 2 as a result of the band 3 content.

Examiners should not seek to mark candidates down as a result of small omissions in minor areas of an answer.

Stage 2 – Deciding on the mark

Once the band has been decided, examiners can then assign a mark. During standardising (marking conference), detailed advice from the Principal Examiner on the qualities of each mark band will be given. Examiners will then receive examples of answers that have been awarded a mark by the Principal Examiner. Examiners should mark the examples and compare their marks with those of the Principal Examiner.

When marking, examiners can use these examples to decide whether a learner's response is of a superior, inferior or comparable standard to the example. Examiners are reminded of the need to revisit the answer as they apply the mark scheme in order to confirm that the band and the mark allocated is appropriate to the response provided.

Indicative content is also provided for banded mark schemes. Indicative content is not exhaustive, and any other valid points must be credited. In order to reach the highest bands of the mark scheme a learner need not cover all of the points mentioned in the indicative content but must meet the requirements of the highest mark band. Where a response is not creditworthy, that is contains nothing of any significance to the mark scheme, or where no response has been provided, no marks should be awarded.

Essay Mark Scheme Unit 2

Understanding / Quality of Response (AO2)

- 20/19/18** Direct and concise, clear and coherent, completely relevant to question, showing independent thought, knowledge and analysis.
- 17/16/15** Well-structured argument which focuses on main aspects of the question, but not exhaustively. Lacks a little concision and analysis.
- 14/13/12** Tendency to focus on information rather than present analysis or argument. Evidence of a lack of precision and clarity with some meanings unclear.
- 11/10/9** Some lack of focus on central themes of question with some irrelevance. May use pre-learned information not appropriate to question set. Lacks overall precision and clarity.
- 8/7/6** Significant lack of focus on central themes of question and inability to communicate clearly. Large amount of irrelevant information.
- 5/4/3** Clear evidence of misunderstanding or misinterpretation of question set. Lack of organization, confused statements, unclear meaning.
- 2/1** A rambling, disjointed, irrelevant essay.
- 0** Nothing of value presented.

Accuracy (AO3)

- 10/9** Evidence of sound grasp of grammar and syntax. Occasional errors, some of which may be repeated, indicating a particular weakness.
- 8/7** The basic principles of grammar are applied in factual contexts, but the level of accuracy tends to suffer in abstract, argumentative use of the target language. A number of recurring errors (genders, pronouns, verb endings, tenses, agreement) tend to detract from an otherwise convincing performance. Limited range of subordinate clauses.
- 6/5** A degree of accuracy is evident in brief factual statements only, usually in pre-learned responses. Few, if any compound tenses. High incidence of elementary errors.
- 4/3** Erratic use of simple grammatical forms in a few straightforward utterances. May appear careless.
- 2/1** Rudimentary grasp of basic grammar evident in short main clauses. Frequent serious errors, fragmented and incomplete sentences. No sense of structure. Meaning unclear.
- 0** No evidence of understanding linguistic principles. Strings words together. Frequent elementary errors.

Range and Idiom (AO3)

- 5** Good range of structures and vocabulary to suit a variety of linguistic situations, but some limitation in abstract contexts. Appropriate use of 'Spanish' structures. Reasonable feel for register appropriate to the situation. Less common topic-specific vocabulary used to good effect.
- 4** Able to use a limited range of structures appropriately. Range of tenses limited but sound. Evidence of some English / Welsh structures used inappropriately. Some vocabulary lacking or used inappropriately.
- 3** Evidence in straightforward factual contexts of understanding some basic principles of idiomatic usage. Range of structures and vocabulary limited to the most common. Short sentences predominate, but some pre-learned phrases used appropriately.
- 2** Range of structures and vocabulary adequate only for factual statements. Evidence of a sense of grammatical structure only in short phrases.
- 1** Elementary grasp of idiomatic usage. Brief responses, applied in familiar contexts. Tends to confuse registers. Main verbs in present tense, irrespective of task set.
- 0** No understanding of linguistic principles. Vocabulary and structures inadequate for the job. Unintelligible for native speakers without knowledge of English / Welsh.
