Candidates answer on the Question Paper

**OCR Supplied Materials:**

None

**Other Materials Required:**

None

**Thursday 10 June 2010****Morning****Duration: 2 hours**

Candidate Forename					Candidate Surname				
--------------------	--	--	--	--	-------------------	--	--	--	--

Centre Number						Candidate Number			
---------------	--	--	--	--	--	------------------	--	--	--

**MODIFIED LANGUAGE****INSTRUCTIONS TO CANDIDATES**

- Write your name clearly in capital letters, your Centre Number and Candidate Number in the boxes above.
- Use black ink. Pencil may be used for graphs and diagrams only.
- Read each question carefully and make sure that you know what you have to do before starting your answer.
- Answer **all** the questions in Section A, **all** parts of the question in Section B and **one** question in Section C.
- Do **not** write in the bar codes.
- Write your answer to each question in the space provided. If additional space is required, you should use the lined pages at the end of this booklet. The question number(s) must be clearly shown.

**INFORMATION FOR CANDIDATES**

- The number of marks is given in brackets [ ] at the end of each question or part question.
- The total number of marks for this paper is **120**.
- Quality of written communication is assessed in Sections B and C.
- This document consists of **24** pages. Any blank pages are indicated.

Answer **all** questions from Section A

### Section A

- 1 Baron-Cohen, Jolliffe, Mortimore and Robertson conducted a study on autism in adults.

- (a) Identify **one** of the word pairs in the 'Eyes Task' from this study.

.....  
.....  
.....  
.....

[2]

- (b) Outline **one** finding from the 'Eyes Task' from this study.

.....  
.....  
.....  
.....

[2]

- 2 Savage-Rumbaugh conducted a study into symbol acquisition of pygmy chimpanzees. Quantitative data was gathered.

- (a) Identify **two** ways in which quantitative data for this study was gathered.

.....  
.....  
.....  
.....

[2]

- (b) Give **two** examples of quantitative data collected in this study.

.....  
.....  
.....  
.....

[2]

- 3 The Loftus and Palmer study on eyewitness testimony used two laboratory experiments.

- (a) Identify the **two** experimental groups in Experiment 2.

.....  
.....  
.....  
.....

[2]

- (b) Outline **one** difference between the responses of the two experimental groups in Experiment 2.

.....  
.....  
.....  
.....

[2]

- 4 From the Samuel and Bryant study on conservation, outline **two** of the experimental conditions.

.....  
.....  
.....  
.....  
.....  
.....  
.....  
.....

[4]

- 5 Freud conducted the study of Little Hans.

- (a) Describe how Freud collected the data.

.....  
.....  
.....  
.....

[2]

- (b) Suggest **one** reason why this data may not be considered valid.

.....  
 .....  
 .....  
 .....

[2]

- 6 The participants in the study of aggression by Bandura, Ross and Ross were children.

- (a) Identify **two** other characteristics of the sample used in this study.

.....  
 .....  
 .....  
 .....

[2]

- (b) Outline **one** difficulty which psychologists may have when they study children.

.....  
 .....  
 .....  
 .....

[2]

- 7 Correlation of volume change in the right posterior hippocampus with time working as a taxi driver

The above scattergraph shows some of the results obtained by Maguire et al in their study of taxi drivers.

- (a) Identify the **two** variables correlated in the scattergraph.

.....  
.....  
.....  
.....

[2]

- (b) Outline the correlation shown in this scattergraph.

.....  
.....  
.....  
.....

[2]

- 8 Dement and Kleitman conducted a study into sleep and dreaming.

- (a) Describe **one** way in which the study lacked ecological validity.

.....  
.....  
.....  
.....

[2]

- (b) Explain why it was appropriate for this study to lack ecological validity.

.....  
.....  
.....  
.....

[2]

- 9 The study by Sperry investigated the psychological effects of hemisphere disconnection in split brain patients.

(a) Describe what is meant by the term 'hemisphere disconnection'.

.....  
.....  
.....  
.....

[2]

(b) Identify **one** way hemisphere disconnection affected Sperry's participants when they were presented with stimuli to one visual field.

.....  
.....  
.....  
.....

[2]

- 10 Reicher and Haslam conducted the BBC prison study.

(a) Describe what is meant by the term 'tyranny'.

.....  
.....  
.....  
.....

[2]

(b) Reicher and Haslam manipulated variables to create a situation which could lead to tyranny. Describe one of these variables.

.....  
.....  
.....  
.....

[2]

11 Piliavin, Rodin and Piliavin conducted the Subway Samaritan study.

- (a) What is meant by the term 'diffusion of responsibility'?

.....  
.....  
.....  
.....

[2]

- (b) Outline **one** reason why diffusion of responsibility was not found in this study.

.....  
.....  
.....  
.....

[2]

12 Milgram conducted a study into obedience.

- (a) Identify **two** findings from this study.

.....  
.....  
.....  
.....

[2]

- (b) Outline **one** explanation Milgram gave for his findings.

.....  
.....  
.....  
.....

[2]

- 13 Describe **two** ethical issues raised by Rosenhan's study 'On being sane in insane places'.

.....  
.....  
.....  
.....  
.....  
.....  
.....  
.....  
.....

[4]

- 14 From Thigpen and Cleckley's study into multiple personality disorder:

- (a) What is a longitudinal study?

.....  
.....  
.....  
.....  
.....

[2]

- (b) Outline **one** weakness of longitudinal research as used in this study.

.....  
.....  
.....  
.....  
.....

[2]

- 15 Griffiths conducted a study into fruit machine gambling.

- (a) Outline **one** way in which the sample may be considered representative.

.....  
.....  
.....  
.....  
.....

[2]

- (b) Outline **one** way in which the sample may be considered unrepresentative.

.....  
.....  
.....  
.....

[2]

**Section A Total [60]**

**Answer all parts of the question in Section B**

## **Section B**

**16** Choose one of the core studies below

- Savage-Rumbaugh: 'Symbol acquisition by pygmy chimpanzees'
  - Freud: 'Little Hans'
  - Thigpen & Cleckley: 'Multiple personality disorder'

and answer the following questions.

**(a) What was the aim of your chosen study?**

[2]

[2]

(b) Describe why the sample was selected for your chosen study, and suggest **one** disadvantage of this sample;

[6]

- (c) Give **two** advantages of the case study method as used in your chosen study.

[6]

[6]

- (d) Give **two** disadvantages of the case study method as used in your chosen study.

[6]

[6]

- (e) Outline the results of your chosen study.

- [8]

- (f) Suggest how your chosen study could be improved. Give reasons for your answer.

[8]

[8]

## **Section B Total [36]**

Answer **either** question 17 or 18 from Section C

### Section C

**EITHER**

- 17 (a) Outline **one** assumption of the behaviourist perspective.

.....  
.....  
.....  
..... [2]

- (b) Describe how the behaviourist perspective could explain obedience.

.....  
.....  
.....  
.....  
.....  
.....  
.....  
.....  
.....  
..... [4]

- (c) Describe **one** similarity and **one** difference between any studies that could be viewed from the behaviourist perspective.

[6]

- [6]

- (d) Discuss strengths **and** weaknesses of the behaviourist perspective, using examples from any studies that could be viewed from this perspective.

[12]

. [12]

**OR**

- 18 (a)** Outline **one** implication of the physiological approach.

[2]

- (b) Describe how the physiological approach could explain dreaming.

[4]

- (c) Describe **one** similarity and **one** difference between any studies that use the physiological approach.

[6]

- (d) Discuss strengths and weaknesses of the physiological approach using examples from any studies that take this approach.
