The wheel used to play a game called 'Pets Galore' is shown below.

The wheel is spun again and the arrow points to an animal.  
The chance that it points to a **cat** is

- |                       |               |
|-----------------------|---------------|
| <input type="radio"/> | impossible.   |
| <input type="radio"/> | one in eight. |
| <input type="radio"/> | fifty-fifty.  |
| <input type="radio"/> | certain.      |

15

The marbles in this bag are blue (B), red (R), green (G) and yellow (Y).

A marble is randomly selected.

Shade one bubble

The probability that it is green (G) is

$$\frac{1}{5}$$

☐

$$\frac{2}{5}$$

☐

$$\frac{3}{5}$$

☐

$$\frac{4}{5}$$

☐

16

A car is travelling on a highway at 90 km/hr.

How long will it take to travel 135 km?

☐ 0.5 hr

☐ 1.0 hr

☐ 1.5 hr

☐ 2.0 hr

17

Jane bought an autographed football for \$200.

What is the football worth if its value increases by 20%?

☐ \$240

☐ \$320

☐ \$420

☐ \$440

18

Which tiles should go in the space to complete the pattern?

☐

☐

☐

☐

Shade one

Male/Female \_\_\_\_\_  
Hair colour \_\_\_\_\_  
Height \_\_\_\_\_  
Eye colour \_\_\_\_\_

☐

24

The dot plot shows the number of movies watched by students in a Year 7 class during the school holidays. (Each dot represents one student.)

Write one number in each box

How many students watched 5 or more movies?

25

$$18.67 + 5.9 + 12.97 =$$

  .  

26

Solve for  $x$

$$55 = 2x + 7$$

$x =$

27

A one litre carton of fruit juice weighs between

Shade one bubble

- ☐ 0 kg and 0.5 kg.
- ☐ 0.5 kg and 1.5 kg.
- ☐ 1.5 kg and 2.5 kg.
- ☐ 2.5 kg and 3.5 kg.

28

The shortest distance from **C** to **E** is about

- ☐ 10 km
- ☐ 25 km
- ☐ 40 km
- ☐ 55 km

29

A toy car made to scale 1:40 has a length of 8 cm.

Shade one  
bubble

What is the length of the full-sized car?

- ☐ 8 cm  
☐ 40 cm  
☐ 140 cm  
☐ 320 cm

30

How many vertices does this solid have?

- ☐ 8  
☐ 9  
☐ 15  
☐ 16

31

$$\sqrt{\frac{9}{25}} =$$

$$\frac{3}{25}$$

$$\frac{9}{25}$$

$$\frac{3}{5}$$

$$\frac{9}{5}$$

38

The scatterplot shows total monthly rainfall plotted against the number of rainy days per month.

Shade one bubble

How much rainfall would you expect in a month with 8 rainy days?

- ☐ 10 mm
- ☐ 25 mm
- ☐ 40 mm
- ☐ 55 mm

39

Which rule connects  $y$  to  $x$  in the following table?

$x$	0	1	2	3	4	5
$y$	-1	0	1	2	3	4

- ☐  $y = 1$
- ☐  $y = x$
- ☐  $y = x + 1$
- ☐  $y = x - 1$

40

The angle marked between the clock hands is

- ☐  $45^\circ$
- ☐  $90^\circ$
- ☐  $180^\circ$
- ☐  $270^\circ$

41

The surface area of the prism is

Shade one bubble

- ☐  $10 \text{ cm}^2$   
☐  $17 \text{ cm}^2$   
☐  $34 \text{ cm}^2$   
☐  $42 \text{ cm}^2$

42

For each call a mobile phone company charges a 45 cent connection fee and 20 cents for every minute of call time.

Which equation represents the total cost,  $c$  (in cents), of a phone call lasting  $m$  minutes?

- ☐  $c = 20m + 45$   
☐  $c = 45m + 20$   
☐  $c = 20(m + 45)$   
☐  $c = 45(m + 20)$

43

A graph of  $y = 3x + 1$  is shown.

Write one number in the box

What is the value of  $x$  when  $y = 22$ ?

$x =$

THE PAGE UNTIL YOU ARE  
TOLD BY YOUR TEACHER.**

# Year 7 Mathematics

## Extended Tasks

Please print your name here.

These tasks will take 40 minutes.

First Name

Last Name

*Students are NOT permitted to use calculators.*

### Task 1 – Graphs

Pam completed a survey to find out what students in Year 7 ate for breakfast.

She surveyed 80 students and showed her results in this pie chart.

1

Complete the table to show how many students ate each type of breakfast food.

Breakfast food	Number of students
Fruit	10
Eggs	
Toast	
Cereal	40
<b>Total</b>	<b>80</b>

Write your answer  
in each space

2

What is the size (in degrees) of angle  $T$  in the pie chart?

3

What is the size (in degrees) of angle  $F$  in the pie chart?

4

Of the students who ate cereal, 25% of them ate cornflakes.

How many students ate cornflakes?

5

Draw a bar (column) graph to show the type of food the students ate for breakfast.

Draw your answer  
on the graph

Pam decided to survey **another** 40 students. The results of her survey were that 10 said they ate cereal, 10 said they ate fruit and 20 said they ate toast.

These **new** results were **added** to the earlier results.

6

Complete the table below, including the **new** results.

Breakfast food	Number of students
Fruit	20
Eggs	
Toast	
Cereal	
<b>Total</b>	<b>120</b>

Write your answer  
in each space

7

Complete the pie chart to show the results from the table in question 6.

Clearly draw the boundary lines and label the type of breakfast food.

Draw your answer  
on the pie chart

## Task 2 – Tiling Patterns

Justin is arranging some tiles in the following pattern.

Step 1

Step 2

Step 3

Step 4

8

Draw the fourth step for this pattern in the space provided for Step 4.

Draw your answer in the space

9

Complete the following table for Steps 4 and 5.

Step number	1	2	3	4	5
Number of tiles	1	5	9		

Write your answer in each space

Justin has found a rule to work out the number of tiles for each step.

This is his rule:  $\text{number of tiles} = \text{step number} \times 4 - 3$

10

What is the number of tiles needed to make Step 20?

11

What is the *step number* that would have 33 tiles in it?

Diane also has some tiles. She is arranging her tiles in the following pattern.

Step 1

Step 2

Step 3

12

Complete the table below.

Step number	1	2	3		6
Number of tiles	5	7	9		

13

Complete the rule below to show how Diane could work out the number of tiles for each step.

$$\text{number of tiles} = \text{step number} \times \boxed{\phantom{00}} + \boxed{\phantom{00}}$$

14

How many tiles are needed to make Step 100?
