1<sup>st</sup> Year Examination

May 2013

Paper, Solutions & Examiner's Report

Student Bounts, com

### NOTES TO USERS ABOUT THESE SOLUTIONS

The solutions in this document are published by Accounting Technicians Ireland. They are intended to provide guidance to students and their teachers regarding possible answers to questions in our examinations.

There are often many possible approaches to the solution of questions in professional examinations. The examiner will accept alternatives to the suggested solution shown herein as long as that alternative is appropriate.

This publication is intended to serve as an educational aid. For this reason, the published solutions will often be significantly longer than would be expected of a candidate in an examination. This will be particularly the case where discursive answers are involved.

This publication is copyright 2013 and may not be reproduced without permission of Accounting Technicians Ireland.

Accounting Technicians Ireland

1<sup>st</sup> Year Examination: Summer 2013

**Paper:** TAXATION(Northern Ireland)

Monday 20<sup>th</sup> May 2013: 9.30 a.m. to 12.30 p.m.

### INSTRUCTIONS TO CANDIDATES

### PLEASE READ CAREFULLY

For candidates answering in accordance with the law and practice of Northern Ireland.

Candidates should answer the paper in accordance with the appropriate provisions up to and including the Finance Act 2012. The provisions of the Finance Act 2013 should be ignored.

Allowances and rates of taxation to be used by candidates, are set out in a separate booklet supplied with the examination paper.

Answer ALL THREE QUESTIONS in Section A, and ANY TWO of the THREE questions in Section B. If more than TWO questions are answered in Section B, then only the first two questions, in the order filed, will be corrected.

Candidates should allocate their time carefully.

All workings should be shown.

All figures should be labelled as appropriate e.g. £s, units etc.

Answers should be illustrated with examples, where appropriate.

Question 1 begins on Page 2 overleaf.

The following insert is enclosed with the paper:

• Tax Reference Material

### SECTION A

### **Answer ALL THREE questions in this Section**

### **QUESTION 1**

1stYe Contract Com **Peter** is married to **Neasa** and they have two children aged 9 and 13 years. Peter is a freelance journalist whose 'fees billed' totalled £58,459 during 2012/13. This figure does not include unbilled work, completed during the year in the amount of £3,800. Peter maintains meticulous expenditure records which he has itemised as follows:

| Item  | £     |
|---|-------|
| Travel  | 4,920 |
| Accounting (Completion of Income Tax Returns)   | 150   |
| Membership of the National Union of Journalists | 450   |
| Mobile Telephone ( <i>Note 1</i> )              | 756   |

Note 1: Peter estimates that he uses his mobile for 'business' use approximately 80% of the time.

Neasa is a qualified and registered child-minder and now works in a local crèche. She commenced this employment on 1st September 2012 on a salary of £16,000 per annum. At 5th April 2013 she had paid tax on these earnings under the PAYE system in the amount of £921. Her records to August 2012 revealed that she had gross earnings from *private* child-minding of £7,275 and *related* expenditure itemised as per the following:

| Item  | £     |
|---|-------|
| Children's food, consumables & insurance      | 1,405 |
| General Household Expenditure (Note 2)        | 2,936 |
| Subscriptions to NI Child-minders Association | 150   |

Note 2: The household expenditure relates to annual bills for heating, electricity and rates. Neasa had agreed with HMRC an allowable percentage of 15% of these bills against her income from child-minding activities.

Peter and Neasa jointly own two city centre apartments that they had let (furnished) throughout 2012/13. Associated income and expenditure is as follows:

| Item   | £      |
|--|--------|
| Apartment Rental Income                                    | 23,400 |
| Rates  | 2,100  |
| Letting Agent Fee  | 1,170  |
| Management Charge (levied by apartment management company) | 1,050  |
| Total mortgage Payments (Interest element is £6,324)       | 25,244 |

With the exception of the building society interest, which is exclusively Peter's, Peter and Neasa enjoyed jointly held net investment income as follows:

| Item                      | £   |
|---------------------------|-----|
| Bank Interest             | 75  |
| Building Society Interest | 924 |
| Interest on ISA           | 500 |
| UK Dividends              | 900 |

Peter made payments to registered charities in the amount of £750 during 2012/13 and made contributions to his private pension scheme of £4,320 (net) during the year.

### Required

Calculate Peter and Neasa's income tax liabilities for 2012/13, showing clearly both their liability to income tax and the balance of any tax due.

Note: For the purposes of the above computations you may ignore any payments on account which may have been made by Peter or Neasa.

### **OUESTION 2**

| Legal & Professional Fees   |          | 12                                 | 6,185                    |  |            |   |
| Subscriptions & Donations   |          | 13                                 | 650                      |  |            |   |
| Advertising   |          | 14                                 | 2,100                    |  |            |   |
| HMRC  |          | 15                                 | 1,853                    |  |            |   |
| Drawings  |          |                                    | 34,000                   |  |            |   |
| Depreciation  |          |                                    | 750                      |  |            |   |
| Bank Charges  |          | 16                                 | <u>5,576</u>             | $(\underline{110,527})$ $\underline{13,749}$ |            |   |

- 1 Jim & Joe's deli is a mostly 'over-the-counter' cash business although they do supply some goods to local restaurants. Outstanding invoices in the amount of £1,763 have not been included in the sales figure. An amount of £300 received from the proceeds of the disposal of old display equipment has been included in the sales figure.
- 2 Jim & Joe had been overcharged VAT from a European supplier (despite having provided their supplier with their UK VAT registration number) and had the amount subsequently refunded.
- 3 A local taxi company uses a small self-enclosed unit at the rear of the deli as a base from which they operate and from whom Jim & Joe derive this rental income. The space comprised by this unit relates to approximately 10% of the space of their entire shop premises and this figure has been agreed by HMRC.
- 4 Jim's mother makes their very successful 'home-made' soup and helps out in the shop two days per week. This figure includes payment to her in the amount of £6,450 for wages, NIC and compensation for goods and related expenditure for her home prepared soups. The balance of this figure relates to wages & NIC paid to a catering student on placement.
- 5 This figure relates to rent expenditure paid for the whole premises. Included in this figure is the cost of putting in a stud wall (£600) to partition the area used by the taxi company
- 6 These figures relate to rates and to light & heat levied on the whole premises.

Taxation NI

### May 2013

1<sup>st</sup>Ye

7 This figure includes the following:

| Telephone & Wi-Fi                               | £     |
|---|-------|
| Landline rental                                 | 114   |
| Landline Charges.                               | 468   |
| Wi-Fi (used by Jim & Joe and free to customers) |       |
| Mobile Telephone                                | 1,128 |
| <del>-</del>                                    | 1,830 |

Jim & Joe both have private mobile telephones which they charge fully through the business. They have agreed a proportion of business use with HMRC of 25%

8 This figure is analysed as follows:

| Fridges & Display Equipment                   | £           |
|---|-------------|
| Purchase of (replacement) second hand fridges | 1,650       |
| New Display equipment                         | 790         |
| Loss on disposal of old fridges               | <u> 265</u> |
|   | 2,705       |

The replacement fridges were bought second hand from a business that had gone into liquidation and their cost includes a repair expense of £350 which Jim & Joe had to pay so as to render the fridges usable in the first instance in their deli.

9 This figure comprises the following:

| Delivery Expenses           | £            |
|-----------------------------|--------------|
| Delivery van lease          | 4,200        |
| Fuel (including VAT at 20%) | 2,600        |
| Repairs                     | 750          |
| Parking Fines               | <u>60</u>    |
|                             | <u>7,610</u> |

- 10 This figure comprises gifts to local Church Christmas 'fayres' of food hampers bearing a prominent 'Jim & Joe's Deli' business logo
- 11 This figure is comprised as follows:

| Bad Debts                              | £          |
|--|------------|
| Increase in general provision          | 745        |
| Specific bad debt write-off            | 823        |
| Provision against unpaid rental income | <u>900</u> |
|  | 2,468      |

12 This figure is comprised as follows:

| Legal & Professional                                      | £     |
|---|-------|
| Accounting: Preparation of tax returns (Income Tax & VAT) | 860   |
| Legal fees re: pursuit of bad debts                       | 250   |
| Insurance: Business, public liability, key-man            | 5,075 |
|   | 6,185 |

The accounting charges are broken down as the charge relating to income tax returns (£345) and the charge relating to VAT returns (£515). The insurance expense is broken down as £2,450 (business shop contents, fire, theft, van), £1,695 (public liability) & £930 (key-man re: Jim/Joe).

13 Subscriptions and donations are made up of subscriptions to a trade organisation (£500), subscriptions to a trade magazine (£50) and charitable donations to a local scout group (£100).

### Question 2 is continued on the next page

- 1<sup>st</sup>Ye Advertising relates to the expense of advertising in various local newspapers and trade magazines a 14 the cost of free samples given to customers from time to time with a value of £175.
- 15 This figure is comprised as follows:

| HMRC                           | £          |
|--------------------------------|------------|
| VAT accrual                    | 1,389      |
| Interest on overdue income tax | <u>464</u> |
|                                | 1.853      |

16 This figure is comprised as follows:

| Bank Charges                      | £            |
|-----------------------------------|--------------|
| Interest on business bank account | 363          |
| Bank Charges                      | 225          |
| Credit Card (amounts purchased)   | 4,821        |
| Credit Card (interest charges)    | <u>167</u>   |
|                                   | <u>5,576</u> |

Jim uses the credit card for mostly business purchases that he estimates to account for 70% of purchases made using this credit card, the balance being private purchases by Jim.

17 It comes to your attention that both Jim and Joe have taken a significant amount of stock for their own consumption. Upon investigation the relevant figure for this stock is £1,385 (cost price), £1,939 (potential selling price).

Show the tax adjusted profits for Jim & Joe's deli for Year Ended 31<sup>st</sup> March 2013.

### May 2013 Question 3 is continued on the next page

1<sup>st</sup>Ye

(iv) Krishuz and his wife own a house on the County Antrim coast that they use occasionally for family purposes and let out at other times.

### Required

Briefly outline the conditions that would have to be met in order for this property to be treated as 'furnished holiday accomodation'.

Fred commenced self-employment on 1st March 2011 making up accounts to 31st December (v) 2011 and annually thereafter. His results have been as follows:

|                     | Adjusted Profits (£) |
|---------------------|----------------------|
| Period to 31/12/11  | 13,650               |
| Year ended 31/12/12 | 17,136               |

Calculate the taxable profits for all relevant years. Note that you are not required to indicate any arising overlap profit.

(4 Marks)

Harry will be 75 years old on 6<sup>th</sup> April 2013. He enjoys the following income: (vi)

|  | I.     |
|--|--------|
| State Pension                          | 6,500  |
| Pension from former employment (gross) | 18,000 |
| Interest income (amounts received)     | 1,360  |
| Dividends received                     | 1,215  |

PAYE of £1,978 had been deducted from the above employment pension. Harry donates £15 per week to his local church, donations for which he is careful to have signed gift-aid declarations.

### Required

Identify the personal allowance to which Harry is entitled in 2012/13.

(4 Marks) Total 20

Marks

### SECTION B

### Answer ANY TWO of the three questions

### **QUESTION 4**

1st Year Town Hounty Com Tony has supplied you with the following VAT inclusive figures in respect of his VAT registered (i) business for the quarter ended 30/9/12:

| Sales   | £      |
|---|--------|
| Invoiced – Sums Received                                  | 14,329 |
| Invoiced – for which have <i>not yet received payment</i> | 2,496  |
| Cash <u>lodged</u> re: <u>Cash Sales</u>                  | 3,400  |
| Expenses Paid out of Cash Sales                           | £      |
| Sundry  | 975    |
| Purchase of Shop Furniture                                | 1,105  |
| Stock   | 1,976  |
| Drawings  | 2,750  |

Tony notes that of the outstanding invoices, £1,200 is not expected to be recovered as these invoices have been outstanding for between 3 and 4 months.

Calculate the output tax due on Tony's sales for the quarter ended 30/9/12.

(4 Marks)

(ii) Feargal is self-employed and has recently registered for VAT. He purchases all his fuel for his car, a Ford with CO<sub>2</sub> emissions of 163 grams/km, which he uses for both private and business purposes. Feargal is unsure of the correct VAT treatment of his fuel purchases and has asked you to email him to explain to him what he should be doing.

### Required

Briefly explain how Feargal should be treating his fuel purchases so as to ensure an appropriate VAT treatment.

(3 Marks)

(iii) Conor is self-employed and has a turnover of approximately £100,000 per annum. He did not submit his VAT return for the quarter ended 30/11/12 until 13/1/13 and submitted the immediately next VAT return on 1<sup>st</sup> June. HMRC had not raised any assessments to date.

### Required

Briefly outline any penalties, surcharges or interest that will be levied on Conor.

(4 Marks)

(iv) Zeb is VAT registered and receives an order with a net value of £1,500 from a customer in Madrid who trades under the name 'IBERIATA'. This Spanish customer has provided Zeb with a valid Spanish VAT number.

### Required

Briefly explain to Zeb how he should treat this supply for VAT purposes.

(2 marks)

1<sup>st</sup>Ye Attracta is self-employed and works from home. She uses her home telephone for business purposes (v) and estimates that her use of this telephone is approximately 40% private and 60% business. Attracta pays 100% of her home telephone bill using a business bank account.

May 2013

### Required

Explain to Attracta the *two* methods for dealing with this expense for VAT purposes.

(3 Marks)

Matthew is in the first year of his business and, during the trading year to 30th April 2013 he had (vi) turnover in the first two quarters of £18,455 rising to £19,950 in the second two quarters. He expects his sales to continue at £19,950 per quarter throughout his second year of trading.

Indicate by when, if at all, Matthew should register for VAT.

### **QUESTION 5**

(i) Outline the normal time limits for during which HMRC may commence an enquiry into an individual's personal income tax return.

(4 Marks)

Briefly distinguish between 'discovery assessments' and 'determinations' taking care to note (ii) the time limits for raising such assessments/making determinations.

(6 Marks)

Taxpayers have an obligation to maintain adequate records in support of making relevant tax (iii) returns. Note the time limits for maintaining such records and the penalties which HMRC can impose for failure in maintenance of relevant records.

(3 Marks)

(iv) Briefly outline the scope and limitations of HMRC powers to request information from taxpayers and third parties. You do not have to give specific examples of information for which HMRC may not make a request.

Total 20 Marks

### **QUESTION 6**

1stYe dente Ounti-Com Ronan runs PRENDEGHAST Limited, employing three staff. You have been asked to help with training the office junior to complete payroll and so you have chosen the above company for month 7 as your 'live' example. Relevant details for month 7 of the three employees of PRENDEGHAST Limited for 2012/13 are as follows:

|                                     | Claire     | Michael        | Ken     |
|-------------------------------------|------------|----------------|---------|
| Cumulative Gross Pay inclusive of   |            |                |         |
| Month 6, excluding all deductions   | See Note 1 | £26,558        | £15,216 |
| Childcare Vouchers (per month)      | NIL        | NIL            | £240    |
| Pension                             | See Note 1 | £150 per month | NIL     |
| Tax Code                            | See Note 1 | <b>K</b> 370   | 645L    |
| Tax Deducted to Date (M6 inclusive) | See Note 1 | £5,565         | £2,232  |
| Salary in Month 7                   | £2,695     | £4,450         | £2,495  |

- (1) Claire has just joined the company and, to date, no P45 has been received in respect of her previous employment. Claire has indicated that she does not intend making any payroll facilitated pension contributions and will continue with her monthly private pension contributions at the rate of £250 per
- Michael's tax code has just been received by PRENDEGHAST Limited with instruction to supersede (2) any previously employed notice of coding. PRENDEGHAST Limited facilitate pension contributions through the payroll under net pay arrangements.

### Required

Calculate the income tax and NIC liabilities due under the PAYE system for each of the above employees. Note that you are not required to complete form P11 nor are you required to indicate how you would have done so.

(12 Marks)

(ii) Outline the due dates for submission of relevant monthly PAYE returns for both 'larger' & 'smaller' employers (in the context of both the number of employees and size of PAYE liability).

(4 Marks)

(iii) Briefly interpret the PAYE suffixes 'BR', 'NT' & 'P'.

- Feargal may claim the input tax credit on fuel purchased but must account for output tax (ii) on the fuel according to the fuel scale charge, which itself depends on the Co2 rating of the vehicle. For Feargal's car this means that his output tax per quarter on a gross (VAT inclusive) basis is £61 (£366 gross).
- (iii) Since Conor's turnover is less that £150,000 he will be 'in default' in respect of the VAT return Any two points: for Q/E 30/11/12 which was received 13 days late. This will prompt a letter of support from HMRC in the first instance and, since his next return is also late, a 'Surcharge Liability 2 Marks Notice' with respect to the subsequent return. This subsequent notice will explain to Conor Each

the sanctions in respect of further missed deadlines but, as yet, will not impose any penalty.

Assuming that Conor's tax returns (when returned late) are submitted accurately and no assessments have been raised, Conor should not be subject to any penaltiesor interest.

(iv) Since the Spanish customer has provided Zeb with a valid Spanish VAT number, the goods should be sold 'zero rated' to the Spanish customer and the sale noted on therelevant HMRC return.

2 Marks

Attracta can either (i) claim all of the relevant VAT as a refundable input and a (v) relevant proportion of the tax (relating to the private use portion) as an output or(ii) recalim as a refundable input only that proportion of the VAT relating tobusiness use (with no associated output).

Each treatment:1.5 **Marks Each** 

**Matthew's** first year turnover is  $(£18,455 \times 2) + (£19,950 \times 2) = £76,810$ . (vi) By the 13th month of trading his '12 month consecutive 'rolling' turnover rises to: £76,810 - (£18,455/3) + (£19,950/3) = £77,308.33 at which point Matthew has 30 days in which to register for VAT.

Cumulative, "Rolling" Total and Registration Threshold: 4 Marks

Note that this analysis ignores any subsequent rises to VAT registration thresholds of which we are not yet aware.

Taxation NI May 2013

### **Solution 5**

(i)

Generally, HMRC have 12 months from the date the tax return was submitted in order to launch an enquiry.

1<sup>st</sup>Year 2 hours on the second If the return was filed late, or amended, the deadline is extended until the quarter following the first anniversary of the actual filing date (quarter dates being January 31st, April 30<sup>th</sup>, July 31<sup>st</sup>& October 31<sup>st</sup>).

(ii)

- If HMRC believe that a submitted return represents an under-declaration of tax, they can raise a discovery assessment to collect the additional tax.
- Where this under-declaration is due to 'careless error', the time limit for raising the discovery assessment is normally four years from the end of the relevant tax year. This deadline extends to six years in the case of tax-payer negligence and twenty years in the case of tax=payer dishonesty.
- In the event of an individual ignoring an HMRC notice requiring them to submit a return, an officer of HMRC is entitled to 'determine' the tax liability to the best of their ability given the information available.
- Determinations must be raised within four years of the end of the relevant tax year.

(iii)

- Taxpayers in business or having a source of rental income must keep records for five years from the 31st January following the end of the tax year.
- In all other cases, taxpayers must keep records for 12 months from the date of the return.
- The maximum penalty for failure to keep records is £3,000 per tax year/accounting period.

(iv)

- HMRC has statutory powers to request information from tax-payers and third parties via written notice in circumstances where the tax-payer has not co-operated fully with previous information requests.
- HMRC can request to see financial records, supplementary records (diaries, notes, contracts) and, generally, the information must be reasonably required for the purposes of checking the individual's tax position.
- Where information is requested from a third party, it must be done with the agreement of the tax-payer or with the approval of a tribunal (unless it is VAT related). Tax advisers or accountants cannot be asked to provide information connected with their function (working papers etc.).

### **General Comments:**

Overall at this sitting, this diet of candidates achieved a very satisfying pass rate (73%) and there were a very pleasing number of thoroughly excellent scripts received. As is always the case, not all candidates achieved a satisfactory level of performance and this remains a disappointment, especially given the ready availability of thorough & excellent media by which prospective exam candidates may now acquaint themselves with the syllabus and acquire the necessary knowledge & skills required to achieve, at the very least, a pass in this examination. Prospective exam candidates can take a great deal of heart in the knowledge that it remains the case that any candidate for this examination will be well served by acquainting themselves with basic income tax & VAT and making use of the afore-mentioned resources – it is pleasing that the majority do so and the pass rates at this examination reflects their efforts.

This exam paper represented reasonably standard fare at this level with candidates ability to perform a standard mix of income tax computations, adjusted profit computations & PAYE calculations being tested and all backed up by a requirement for candidates to have a broad grasp of basic income tax & VAT. As is the trend in this examination, candidates scored least well in the narrative question and the VAT question.

### **Question 1**

1stYean

ritions for income.
ried co.
res or This was a generally well answered question requiring candidates to perform income tax computations for couple who each had a mix of income from employment, self-employment and savings & investment income. as noted, this was a generally well answered question, a small number of solutions attempted to tax the married co jointly (not having being on the statute for over 20 years) or giving each of Peter &Neasa personal age allowances or married couples allowance.

### **Question 2**

This was another generally well answered question, albeit not quite as well answered as Q1. This question was a standard 'adjusted profits' computation requiring candidates to identify the usual mix of private, capital & unallowable expenditure (& non-taxable income) and adjust accordingly. Where candidates did make mistakes it had, at its root, confusion between private & business related expenditure or a lack of clarity in some specifically nonallowable expenditures. The puzzling trend with a number of candidates with this question at this sitting was, despite repeated appeals to the contrary, presentation of solutions which attempted to reconstruct the profit & loss account rather than present the expected adjusted profits format. This resulted in zero marks being awarded to a number of candidates. As noted above, repeated appeals have been made in previous exam reports & at examiner liaison meetings directing exam candidates not to attempt anything other than an adjusted profits format when answering this question – and this very point is made in the manual also.

This was a reasonably well answered question which is becoming a standard type of question in this examination and tested candidates' knowledge in a broad range of areas. Where mistakes were made it reflected in candidates' inability to deal with the necessary computation required to calculate an individuals' tax code, omission of class 2 NIC for the self-employed person or, indeed, treating them as an employed person! Given that time management is a necessary skill to pass this (as any) exam, it was somewhat frivolous that some candidates attempted solutions far beyond that required of them - for example, in part (vi), candidates were only required to calculate Harry's PAA, not conduct a full income tax computation for him!

### **Question 4**

This question was not well answered in general. VAT is an integral element of this syllabus and it is thoroughly dealt with in relevant study material and carrying on with the theme of poor time management, part (i) only required candidates to calculate output VAT not attempt a full-blown VAT calculation! Candidates were good at pointing out that Feargal (part ii) should account for output VAT according to the fuel scale charge but often omitted to mention that he could reclaim all of the input VAT on the fuel. The simple VAT penalty element of the question (part iii) confused a number of candidates as did part (iv) relating to EC sales. Part (v) was generally well answered but some candidates did seem to get VAT and standard financial accounting/adjusted profits somewhat confused. A similar question has been asked before to that in part (vi) although it was clear that a number of candidates do not revise from past papers!

### **Question 5**

This narrative question was far-and-away the least popular and least well answered and was, itself, all based on material expanded upon in the manual. The general standard of answer was very disappointing. In this examination it would be misleading for prospective exam candidates to think of the narrative question as a theory question which it most certainly is not. This question invariably requires exam candidates to make narrative responses to questions probing their knowledge of basic, 'every-day' administrative structures and processes relating to UK tax practice and administration - all contained in the custom manual! Familiarisation with this material will serve prospective exam candidates well in future examinations of this syllabus.

### **Question 6**

This was, on the whole, a very well answered question and candidates for this examination are generally to be commended on their ability to perform payroll computations. As hinted at in the most recent examiner liaison meeting, some of the computation traditionally required in this form of question, was at this sitting, replaced by relevant narrative question(s) and it is pleasing to note that the better candidates displayed evidence of a sound understanding in this area. However, only a very small minority of candidates recognized the statutory 50% limit for k-code deductions (Michael) and some traditional areas of confusion for some candidates do, however, keep reappearing. For example, many candidates attempted to give tax relief for private pension contributions by deducting through the payroll, or treated pension contributions as deductible for NIC purposes or failed to deduct CCV for IT & NIC purposes. There are some otherwise very easy marks being tossed away by such treatment.
