AKU-EB is a member board of The International Association for Educational Assessment (IAEA), and
The Association of Commonwealth Examination and Accreditation Bodies (ACEAB)

Investing IN KNOWLEDGE Inventing THE FUTURE

AKU-EB's Innovative e-Marking

First in Pakistan.

First in South Asia.

Fourth in the World.

Enabling Students to Achieve Their Goals

Maintaining a high level of transparency and confidentiality in preparing the examination results is one of the key commitments at AKU-EB. Through its innovative computerised marking and data analysis system, candidates are enabled to achieve what they truly deserve. This purpose built e-Marking facility has a suite of 72 workstations to enable e-marking of scripts in the candidates' own handwriting. This indigenous e-marking software is unique in South Asia and unmatched outside the western world.

How does e-Marking work? The highlight of our e-Marking software is the anonymity of any candidate to the e-markers which ensures transparency. This system:

Promotes integrity and reliability: by continuously monitoring marker behavior against a customized marking scheme for each question and by allowing eight to ten separate judgments of any examination script. This decreases the chance of all types of marking bias.

Counteracts cheating, and the use of unfair means: by minimizing opportunities for student malpractice and identifying invigilator malpractice.

Reduces marker error to less than 2%: by allowing real time statistical monitoring of marker's standards. Senior markers do the final review and verification of the marks.

Enables students to meet most college and university admission deadlines: by speedy and on-time release of results. Results are announced within six weeks of the exams.

Empowers schools to improve their teaching practices, and student learning outcomes: by generating diagnostic feedback reports for teachers, schools and developers of learning materials.

AGA KHAN UNIVERSITY EXAMINATION BOARD

Arifa Sultana (AKU-EB Alumnus)

Modern Languages

National University of Modern Languages, Islamabad, Pakistan

"I couldn't hold myself when I became the first ever Pakistani student to earn the French Embassy Scholarship of Rs. 720,000 for six years. This 100% Scholarship also includes two years of specialization in France after I complete my Bachelors at NUML."

"Arifa is a fast learner and confident in her ideas. She is regular and punctual. She expresses herself well in writing. Her performance, and participation in the extra-curricular activities, her good academic standing. She demonstrates a clear aptitude in learning languages. I am sure she will do even better in future."

Rukhsana Hassan

Assistant Professor

National University of Modern Languages

Kamil Khuwaja (*AKU-EB Alumnus*)
 Electrical Engineering
 University of Windsor, Ontario, Canada

"I chose University of Windsor because it offers good research and cooperative programs. Besides rigorous studies, I am also actively involved in many extra-curricular activities such as the Engineering Without Borders club and Lancer Club of Basketball."

"Kamil is one of the hardest working, sincere, and dedicated students of much intellectual promise. Based on his strong performance and class participation, I would rate him as a superior student who has come well prepared for university education. During the group assignments, he demonstrates creativity and problem solving skills. He is also always very interested in helping and supporting others."

Aminesh Sarker, PhD

Nageen Fatima (AKU-EB Alumnus)

Entrepreneurship

Institute of Business Administration (IBA), Karachi, Pakistan

"Entrepreneurs are fascinating. They not only build their own lives, but are also responsible for improving lives of other people. I also intend to give back to my country by helping to improve lives. I recently worked on a food business project with my team at IBA which was loved by our target market. We managed to successfully run the business for five months."

"Nageen precisely reflects her name which means unique, shining and bright. She is one of the best students in her class. She is intelligent, participates actively in discussions and more. She demonstrates excellent communication skills both in Urdu and English. Her performance reflects that she has had a good academic background. In fact all students coming from AKU-EB are among the best lot."

Mirza Sardar Hussain

Adil Shah (AKU-EB Alumnus)

Electrical Engineering
Lahore University of Management Sciences (LUMS)
Lahore, Pakistan

"I chose LUMS because of its high quality education, research, and world class faculty. I am much interested in studying the relationship of science with religion and politics to have a better understanding of the society and nature."

"Mr Shah is a very bright student. The core courses of Science & Engineering are really challenging and assess both the depth and breadth of a student's understanding and knowledge. In Chemistry, especially, Mr Shah scored 93% marks in the midterm exam. For this excellent performance, we must also give credit to AKU-EB that prepared him well and inculcated in him so many good qualities that he has been winning the highest accolades of his teachers here at LUMS."

Dr Falak Sher

Sonia Siddiqui (AKU-EB Alumnus)
 MBBS
 Dow University of Health Sciences (DUHS)
 Karachi, Pakistan

"I aspire to become a Neurosurgeon and make my existence meaningful. I was fascinated to observe a heart surgery at Civil Hospital Karachi from hardly an arm's distance. Lost in the challenges of medical terms, I also enjoy being a member of Patients' Welfare Organization and of the college's Basketball team."

"Sonia is one of our best students. She's punctual, always prepared for the discussion on the topics assigned. She is admired for her excellent communication skills. She is always the one who leads discussions with reason and logic rather than mere rhetoric. She is a team player and holds herself well under the stress of deadlines. She is also admired for her social and philanthropic activities."

Farooq Kamal (AKU-EB Alumnus)

Electronics Engineering
Gulam Ishaq Khan Institute of Engineering Sciences and Technology
Topi, Pakistan

"The year 2013 is bringing new adventures and challenges to my journey. Besides academics, I am participating in both national and international Design Build & Fly Competition. I will also be working on the electrical systems of a Formula-One Prototype Car being made at GIKI."

"In Farooq Kamal, I've witnessed tremendous growth in not only his technical and leadership skills but also in maturity and responsibility. Farooq knows how to manage his time, work in teams and under pressure, meet deadlines. With his strong work ethic, persistence, and integrity, he has become the most valuable member of my study group, a team, and a role model for others. He has made me proud."

Mehreen Inayat Ali (AKU-EB Alumnus)
 MBBS
 Aga Khan University Medical College
 Karachi, Pakistan

"I enjoy studying at AKU Medical College because it works in collaboration with international universities to provide education in line with the medical advances and practices around the world. Besides tough curricular schedules at AKU, I have learned to lead a balanced life by engaging in extra-curricular activities."

"Mehreen is a bright student and has consistently improved over time as shown by her performance and attitude. Her dedication and progress at various levels of the study indicate that she knows the value of an MBBS degree. Like Mehreen, all students coming from AKU have a positive attitude toward competition and good interpersonal skills, which actually enhances the quality of work among the team members. I wish her to engross and demonstrate strong academic foundation. I wish her the best of luck in future."

Dr Shagufta Khan

Shamsuddin Mir (AKU-EB Alumnus)

MBBS
King Edwards Medical College
Lahore, Pakistan

"I belong to a small village, Teru. My village has clinics but no doctors. I aim to become a Cardiologist and serve my fellow villagers. I actively help out Student & Patient Welfare Fund which collects blood donations and raises funds for the needy."

"AKU-EB students stand out because of their level of confidence and positive attitude. They excel in co-curricular activities as well. Their language skills are better than other students in the country. Module 1 of their course is very tough and demanding but because of the system a system that promotes active learning and critical thinking, students are able to grasp concepts with ease, and have been maintaining consistent high grades."

Dr Kashif Mannan

Course Director
King Edward Medical University (KEMU)

Nelufar Raza (AKU-EB Alumnus)

Environmental Engineering
National University of Science & Technology (NUST)
Islamabad, Pakistan

"I earned a 50% merit-based scholarship to study Environmental Engineering at NUST. This field inspires me because of research and career opportunities it offers. Besides many extra-curricular activities, I am also an active member of a student-run NGO at NUST, "The Milky Way Trust", which raises funds to give education scholarships to disadvantaged children."

"I feel comfortable to comment that all students at AKU-EB are competitive and well prepared to study a subject as Environmental Engineering. They are all hard workers, take their studies seriously and are great climbers as well. Nelufar's specialty is submitting her assignments on time. She asks good questions and is witty in approaching subjects. She demonstrates good communication and interpersonal skills while working in teams and approaching conclusions as a leader. She is cooperative and regular and also very philanthropic."

Saud Ahmed Khan

Lecturer
Institute of Environmental Science and Engineering (IESE), NUST
