TEXT 1

Beth Johnson is a keen cyclist and a member of an environmental pressure group. She is the founder of Beth's Bikes, a bicycle-sharing business, located in the city of Southampton on the south coast of England.

The business offers individuals the opportunity to have short-term use of one of its bicycles, for an hourly fee.

Beth's Bikes allows customers to collect bicycles from, and return bicycles to, any one of its bicycle stations located across the city. Beth believes that this business concept is an excellent way to reduce our carbon footprint, paving the way to a cleaner and greener environment.

Beth started the business five years ago, with the help of crowd-funding. Beth used social media and press releases to help launch the business. The city's first bicycle-sharing business has been very successful: beginning with just 10 bicycle
