READ INSTRUCTIONS OVERLEAF

INSTRUCTIONS

Use black ink.

Write your answer to each question in the space provided. If you need extra space use the lined pages at the end of this booklet. The question numbers must be clearly shown.

Answer ALL the questions.

INFORMATION

The total mark for this paper is 60.

The marks for each question are shown in brackets [].

Quality of extended response will be assessed in questions marked with an asterisk (*).

ADVICE

Read each question carefully before you start your answer.

Answer ALL the questions.

1 The administrator of a health care centre wants to improve the experience for elderly patients when visiting the centre for appointments. Selected patients will be sent a survey after their appointment asking for feedback about their experiences.

(a) Identify ONE advantage and ONE disadvantage of using a survey to collect feedback.

Advantage _____

Disadvantage _____

[2]

(b)* Describe TWO DIFFERENT sampling strategies that could be used to select participants for this survey.

(c) One way to improve the experience of elderly patients is to improve the health care practices at the health care centre.

(i) Which of these is another potential purpose of the survey?

Tick ONE (✓) box. [1]

To find out whether there is a need to provide a childcare facility.

☐

To find out whether there is a need to increase the number of seats in the waiting room.

☐

To find out whether there is a need to increase the information made available on health conditions for patients visiting the health care centre.

☐

- (ii) Identify TWO ways in which health care practices could be improved at the health care centre for elderly patients.

1

2

[2]

- (d) Research methodologies that could be used to gather data from a survey include:

qualitative

quantitative

multi-methodology.

Choose from the list above to complete the table opposite matching the most appropriate methodology to the example.

You may use each methodology once, more than once, or not at all. [3]

Example	Methodology
Data collected by a researcher asking open-ended questions during an interview.	
Data collected using a video to record a family in their home.	
Data collected by measuring the heart rates of ten participants.	

(e)* The administrator will use government statistics, such as those produced by the Department of Health and Social Care, as secondary sources to help develop survey questions.

Discuss the advantages AND disadvantages of using government statistics to help produce survey questions. [6]

**2 This question relates to the
PRE-RELEASED material and your
SECONDARY RESEARCH.**

**(a) Research questions need to match
the aims of your research.**

**Identify THREE other factors that
should be taken into account
when writing appropriate research
questions.**

1

2

3

[3]

(b)* Present your secondary research in a piece of detailed formal writing that:

is well-structured

justifies the appropriateness of your sources with regard to the research methods they use

makes comparisons and contrasts methods, results or findings. [10]

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

[1]

(e) Outline TWO essential features of accurate note taking when using secondary sources.

1

2

[4]

**(f)* Evaluate your secondary sources
with regards to BOTH of the
following:**

**generalisability
validity. [10]**

[illegible]

END OF QUESTION PAPER

ADDITIONAL ANSWER SPACE

If additional answer space is required, you should use the following lined pages. The question numbers must be clearly shown – for example, 1(d) or 6(b).

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.
