Anil reads this advice.

## **How to stay safe online**

1. Always run up to date security software. This will protect you from viruses and spyware.
2. Never give your name or address to people you don't know.
3. Use strong online passwords. Good passwords have both numbers and letters. Never use a name or a date of birth as a password.
4. For more tips, check [www.safe-online.web](http://www.safe-online.web)
