

# Mark Scheme (Results)

Summer 2015

Pearson Edexcel GCSE in  
Astronomy (5AS01/01)  
Unit 1: Understanding the Universe

## **Edexcel and BTEC Qualifications**

Edexcel and BTEC qualifications are awarded by Pearson, the UK's largest awarding body. We provide a wide range of qualifications including academic, vocational, occupational and specific programmes for employers. For further information visit our qualifications websites at [www.edexcel.com](http://www.edexcel.com) or [www.btec.co.uk](http://www.btec.co.uk). Alternatively, you can get in touch with us using the details on our contact us page at [www.edexcel.com/contactus](http://www.edexcel.com/contactus).

## **Pearson: helping people progress, everywhere**

Pearson aspires to be the world's leading learning company. Our aim is to help everyone progress in their lives through education. We believe in every kind of learning, for all kinds of people, wherever they are in the world. We've been involved in education for over 150 years, and by working across 70 countries, in 100 languages, we have built an international reputation for our commitment to high standards and raising achievement through innovation in education. Find out more about how we can help you and your students at: [www.pearson.com/uk](http://www.pearson.com/uk)

## General Marking Guidance

- All candidates must receive the same treatment. Examiners must mark the first candidate in exactly the same way as they mark the last.
- Mark schemes should be applied positively. Candidates must be rewarded for what they have shown they can do rather than penalised for omissions.
- Examiners should mark according to the mark scheme not according to their perception of where the grade boundaries may lie.
- There is no ceiling on achievement. All marks on the mark scheme should be used appropriately.
- All the marks on the mark scheme are designed to be awarded. Examiners should always award full marks if deserved, i.e. if the answer matches the mark scheme. Examiners should also be prepared to award zero marks if the candidate's response is not worthy of credit according to the mark scheme.
- Where some judgement is required, mark schemes will provide the principles by which marks will be awarded and exemplification may be limited.
- When examiners are in doubt regarding the application of the mark scheme to a candidate's response, the team leader must be consulted.
- Crossed out work should be marked UNLESS the candidate has replaced it with an alternative response.

| Question Number | Answer            | Mark       |
|-----------------|-------------------|------------|
| <b>1(a)</b>     | <b>C</b> The Moon | <b>(1)</b> |

| Question Number | Answer           | Mark       |
|-----------------|------------------|------------|
| <b>1(b)</b>     | <b>D</b> The Sun | <b>(1)</b> |

| Question Number | Answer                  | Mark       |
|-----------------|-------------------------|------------|
| <b>1(c)</b>     | <b>C</b> 150 000 000 km | <b>(1)</b> |

| Question Number | Answer          | Mark       |
|-----------------|-----------------|------------|
| <b>1(d)</b>     | <b>D</b> X-rays | <b>(1)</b> |

| Question Number | Answer                        | Mark       |
|-----------------|-------------------------------|------------|
| <b>1(e) (i)</b> | Nitrogen, N or N <sub>2</sub> | <b>(1)</b> |

| Question Number  | Answer                            | Mark       |
|------------------|-----------------------------------|------------|
| <b>1(e) (ii)</b> | Carbon Dioxide or CO <sub>2</sub> | <b>(1)</b> |

Total for Question 1 = 6 marks

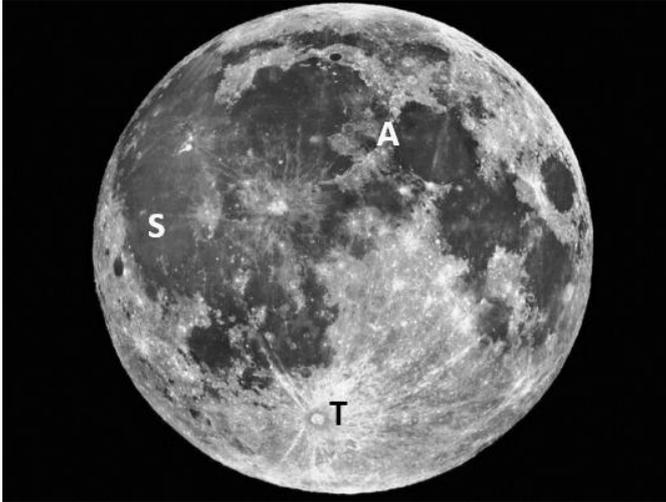

| Question Number | Answer             | Mark       |
|-----------------|--------------------|------------|
| <b>2(a) (i)</b> | <b>A</b> dust tail | <b>(1)</b> |

| Question Number  | Answer                           | Mark       |
|------------------|----------------------------------|------------|
| <b>2(a) (ii)</b> | arrow drawn pointing to the left | <b>(1)</b> |

| Question Number | Answer              | Mark       |
|-----------------|---------------------|------------|
| <b>2(b) (i)</b> | <b>C</b> meteoroids | <b>(1)</b> |

| Question Number  | Answer   | Mark       |
|------------------|--|------------|
| <b>2(b) (ii)</b> | at same point in its orbit (1)<br>Earth intersects dust/meteor stream<br>/cometary tail debris (1) | <b>(2)</b> |

Total for Question 2 = 5 marks

| Question Number  | Answer   | Mark       |
|--|--|------------|
| <b>3(a)(i)<br/>(ii)<br/>(iii)</b>  | S labelled correctly; see diagram<br>A labelled correctly; see<br>diagram T labelled<br>correctly; see diagram | <b>(3)</b> |
|  |  |            |

| Question Number | Answer               | Mark       |
|-----------------|----------------------|------------|
| <b>3(b) (i)</b> | <b>C</b> space probe | <b>(1)</b> |

| Question Number  | Answer  | Mark                                     |
|------------------|---|--|
| <b>3(b) (ii)</b> | Any <b>one</b> of:<br>more highlands<br>fewer (no) maria<br>more craters higher<br>albedo | reject lighter /<br>darker<br><b>(1)</b> |

| Question number | Answer             | Mark       |
|-----------------|--------------------|------------|
| <b>3 (c)</b>    | <b>A</b> 27.3 days | <b>(1)</b> |

Total for Question 3 = 6 marks

| Question Number | Answer                    | Mark       |
|-----------------|---------------------------|------------|
| <b>4 (a)</b>    | <b>A</b> 3C 273, a quasar | <b>(1)</b> |

| Question Number  | Answer  | Mark                           |
|------------------|---|--------------------------------|
| <b>4 (b) (i)</b> | Any two of:<br>quasar;<br>BL Lacerta object;<br>blazar;<br>Seyfert galaxy;<br>N galaxy<br>Radio galaxy etc. | Reject<br>3C 273<br><b>(2)</b> |

| Question Number   | Answer   | Mark  |
|-------------------|--|---|
| <b>4 (b) (ii)</b> | Any one of:<br>higher luminosity<br>emits EM radiation<br>(might be named<br>e.g. X-rays) at all<br>wavelengths; Radio<br>lobes;<br>Active<br>nucleus(AGN)<br>radiation is not<br>thermal; | <b>Insufficient:</b><br>mention of black<br>holes<br>brightness<br><b>(1)</b> |

| Question Number  | Answer                 | Mark       |
|------------------|------------------------|------------|
| <b>4 (c) (i)</b> | <b>A</b> barred spiral | <b>(1)</b> |

| Question Number   | Answer          | Mark       |
|-------------------|-----------------|------------|
| <b>4 (c) (ii)</b> | <b>D</b> Spiral | <b>(1)</b> |

Total for Question 4 = 6 marks

| Question Number | Answer          | Mark       |
|-----------------|-----------------|------------|
| <b>5(a)</b>     | <b>C</b> 5800 K | <b>(1)</b> |

| Question Number | Answer           | Mark       |
|-----------------|------------------|------------|
| <b>5(b)</b>     | <b>D</b> 35 days | <b>(1)</b> |

| Question Number | Answer            | Mark       |
|-----------------|-------------------|------------|
| <b>5(c)</b>     | <b>D</b> sunspots | <b>(1)</b> |

| Question Number | Answer            | Mark       |
|-----------------|-------------------|------------|
| <b>5(d)</b>     | <b>B</b> hydrogen | <b>(1)</b> |

| Question Number | Answer                     | Mark       |
|-----------------|----------------------------|------------|
| <b>5(e)</b>     | <b>A</b> Butterfly Diagram | <b>(1)</b> |

| Question Number | Answer              | Mark       |
|-----------------|---------------------|------------|
| <b>5(f)</b>     | <b>D</b> solar wind | <b>(1)</b> |

Total for Question 5 = 6 marks

| Question Number | Answer   |   | Mark       |
|-----------------|--|---|------------|
| <b>6(a)</b>     | Any one of:<br>No exploration of Southern Hemisphere by Greek or Egyptians<br>constellations not visible from Greece/Egypt | Reject:<br>different stars/constellations visible | <b>(1)</b> |

| Question Number | Answer   |  | Mark       |
|-----------------|--|--|------------|
| <b>6(b)</b>     | different civilisations/cultures compiled<br>different lists<br>different language<br>different mythical figures |  | <b>(1)</b> |

| Question Number | Answer   |  | Mark       |
|-----------------|--|--|------------|
| <b>6(c)</b>     | Any 2 of:<br><br>Asterism is a 'fun/popular' name for a pattern of stars<br><br>Asterism is part of a constellation<br><br>Constellation is (official) area of sky containing a pattern of stars | Insufficient:<br><br>Asterism is smaller than a constellation. | <b>(2)</b> |

| Question Number | Answer   | Reject   | Mark       |
|-----------------|--|--|------------|
| <b>6(d)(i)</b>  | Any well-known asterism<br>e.g. The Plough<br>Saucepan<br>Big Dipper<br>W of Cassiopeia<br>Summer Triangle<br>Winter Triangle<br>Winter Wreath<br>Spring Triangle<br>Winter Hexagon<br>Orion's Belt<br>Great Square of Pegasus<br>Etc... | Great Bear<br>Ursa Major Orion<br>other 'popular names' that are really constellations | <b>(1)</b> |

| Question Number | Answer   | Mark       |
|-----------------|--|------------|
| <b>6(d)(ii)</b> | Any known constellation (accept English or Latin names). | <b>(1)</b> |

Total for Question 6 = 6 marks

| Question Number | Answer  | Mark       |
|-----------------|---|------------|
| <b>7(a)</b>     | Sun, Moon and Earth is alignment (1)<br>with Moon in middle (1)<br><br>Ignore relative sizes or distances and any lines or rays included. | <b>(2)</b> |

| Question Number | Answer  | Mark       |
|-----------------|---|------------|
| <b>7(b)</b>     | Moon's orbital plane and Earth's orbital plane do not coincide<br><br>Moon's orbit inclined to ecliptic Some reference to planes (1) not coinciding (1) | <b>(2)</b> |

| Question Number | Answer                        | Mark       |
|-----------------|-------------------------------|------------|
| <b>7(c) (i)</b> | Gibbous (Waxing not required) | <b>(1)</b> |

| Question Number | Answer                                | Mark       |
|-----------------|---------------------------------------|------------|
| <b>7(c)(ii)</b> | Crescent Moon (about 2 or 3 days old) | <b>(1)</b> |

Total for Question 7 = 6 marks

| Question Number | Answer  |   | Mark       |
|-----------------|---|---|------------|
| <b>8(a)(i)</b>  | Any one of:<br>street/motorway lights;<br>sports stadiums<br>the Moon aurorae | Reject:<br>cities<br>buildings Lamp posts | <b>(1)</b> |

| Question Number | Answer   |  | Mark       |
|-----------------|--|--|------------|
| <b>8(a)(ii)</b> | Milky Way (or its arms) is (mostly) a flat plane<br><br>Insufficient:<br>We are inside the Milky Way |  | <b>(1)</b> |

| Question Number  | Answer                                 |                                | Mark       |
|------------------|--|--------------------------------|------------|
| <b>8(a)(iii)</b> | Dust<br>Allow: gas or molecular clouds | Reject<br>Dark Matter / Energy | <b>(1)</b> |

| Question Number | Answer  |  | Mark       |
|-----------------|---|--|------------|
| <b>8(b)</b>     | Any two of:<br>more stars<br>better/higher resolution<br>higher contrast<br>clearer<br>brighter | Insufficient:<br>better quality<br>magnified<br>bigger | <b>(2)</b> |

| Question Number | Answer  |  | Mark       |
|-----------------|---|--|------------|
| <b>8(c)</b>     | Any one of:<br>Small Magellanic Cloud Large Magellanic Cloud SMC<br>LMC |  | <b>(1)</b> |

Total for Question 8 = 6 marks

| Question Number | Answer  | Mark       |
|-----------------|---|------------|
| <b>9(a)(i)</b>  | Mercury and Venus (1)<br><b>both</b> required, either order | <b>(1)</b> |

| Question Number | Answer  | Mark       |
|-----------------|---------|------------|
| <b>9(a)(ii)</b> | 52 (km) | <b>(1)</b> |

| Question Number  | Answer   | Mark       |
|------------------|----------|------------|
| <b>9(a)(iii)</b> | 9.5 (AU) | <b>(1)</b> |

| Question Number | Answer          | Mark       |
|-----------------|-----------------|------------|
| <b>9(b)(i)</b>  | <b>B</b> 1.0 cm | <b>(1)</b> |

| Question Number | Answer   | Mark       |
|-----------------|--|------------|
| <b>9(b)(ii)</b> | 150/30 (1)<br>5 (1)<br>m (1) only awarded in conjunction with one of the above | <b>(3)</b> |

Total for Question 9 = 7 marks

| Question Number | Answer   | Mark       |
|-----------------|--|------------|
| <b>10(a)(i)</b> | 90, +90, 90°, +90° = <b>2</b><br>90 N or 90°N = <b>1</b><br>Any other numerical value = <b>0</b> | <b>(2)</b> |

| Question Number  | Answer                 | Mark       |
|------------------|------------------------|------------|
| <b>10(a)(ii)</b> | 58 (°)<br>Ignore unit. | <b>(1)</b> |

| Question Number | Answer                               | Mark       |
|-----------------|--------------------------------------|------------|
| <b>10(b)</b>    | Earth's rotation/revolution/spinning | <b>(1)</b> |

| Question Number | Answer      | Mark       |
|-----------------|-------------|------------|
| <b>10(c)</b>    | circumpolar | <b>(1)</b> |

| Question Number | Answer   | Mark       |
|-----------------|--|------------|
| <b>10(d)</b>    | No, it would not set<br>(since the star is circumpolar from this latitude) | <b>(1)</b> |

Total for Question 10 = 6 marks

| Question Number | Answer   | Mark       |
|-----------------|--|------------|
| <b>11(a)(i)</b> | Any one of:<br>drier air<br>less atmosphere<br>less absorbing air steadier air<br>less water vapour<br>lower background/ambient temperature<br>(accept: cooler)<br>less thermal/background noise | <b>(1)</b> |

| Question Number  | Answer  | Mark       |
|------------------|---|------------|
| <b>11(a)(ii)</b> | Any two of:<br>carbon dioxide methane water (vapour)<br>nitrous oxide | <b>(2)</b> |

| Question Number | Answer   | Mark       |
|-----------------|--|------------|
| <b>11(b)(i)</b> | Any two of:<br>allows us to breathe regulates<br>temperature allows liquid water<br>protection from UV/X-rays/solar radiation<br>(NOT: solar wind)<br>protection from meteoroids etc | <b>(2)</b> |

| Question Number  | Answer   | Mark       |
|------------------|--|------------|
| <b>11(b)(ii)</b> | Any one of:<br><br>only transmits small part of EMS absorbs light so less bright<br>only observe stars at night/non-24h observations<br>reduces seeing conditions refraction<br>atmospheric scintillation<br>weather and clouds scatters light | <b>(1)</b> |

Total for Question 11 = 6 marks

| Question Number | Answer                              |  | Mark       |
|-----------------|-------------------------------------|--|------------|
| <b>12(a)(i)</b> | 7<br><br>days (with correct number) | (allow 6 – 8)<br><b>Reject:</b> Any number outside this range, e.g. '9 days' = 0 | <b>(1)</b> |

| Question Number  | Answer   | Mark       |
|------------------|--|------------|
| <b>12(a)(ii)</b> | determine time period (1)<br>use period-luminosity equation to obtain M (1)<br>Use m and M in formula to calculate d (1) | <b>(3)</b> |

| Question Number | Answer                              | Mark       |
|-----------------|-------------------------------------|------------|
| <b>12(b)(i)</b> | correct scale:<br>0, 10, 20, 30, 40 | <b>(1)</b> |

| Question Number  | Answer   | Mark       |
|------------------|--|------------|
| <b>12(b)(ii)</b> | S shown on dashed orbit at:<br>9 o'clock (1)<br>either 12 o'clock or 6 o'clock (1) | <b>(2)</b> |

Total for Question 12 = 7 marks

| Question Number | Answer                       | Mark       |
|-----------------|------------------------------|------------|
| <b>13(a)(i)</b> | <b>P</b> marked at 3 o'clock | <b>(1)</b> |

| Question Number  | Answer   | Mark       |
|------------------|--|------------|
| <b>13(a)(ii)</b> | ellipse or elliptical<br><b>Reject:</b> oval or ecliptic | <b>(1)</b> |

| Question Number | Answer  | Mark       |
|-----------------|---|------------|
| <b>13(b)</b>    | look at the Sun (1)<br>describing a safe method (1) | <b>(2)</b> |

| Question Number | Answer                                     | Mark       |
|-----------------|--|------------|
| <b>13(c)</b>    | <b>C</b> shown on Mars' orbit at 9 o'clock | <b>(1)</b> |

| Question Number | Answer   | Mark       |
|-----------------|----------|------------|
| <b>13(d)(i)</b> | 2.5 (AU) | <b>(1)</b> |

| Question Number  | Answer  | Mark       |
|------------------|---|------------|
| <b>13(d)(ii)</b> | 1.5 <sup>3</sup> or 1.837 (1)<br>1.8 (2) (ignore units) | <b>(2)</b> |

Total for Question 13 = 8 marks

| Question Number | Answer   | Mark       |
|-----------------|--|------------|
| <b>14</b>       | vertical axis labelled luminosity or M (1)<br>horizontal axis labelled spectral type/class or temperature (1)<br>main sequence shown as band from top left to bottom right (1)<br>White dwarfs labelled bottom left (1)<br>Red giants labelled top right (1) | <b>(5)</b> |

Total for Question 14 = 5 marks

| Question Number | Answer         | Mark       |
|-----------------|----------------|------------|
| <b>15(a)</b>    | <b>D</b> water | <b>(1)</b> |

| Question Number | Answer   | Mark       |
|-----------------|--|------------|
| <b>15(b)</b>    | Any named method e.g. astrometry, transit method, radial velocity method (1)<br>description of method:<br>one relevant point (1)<br>two relevant points (2)<br>QWC mark Capital letters and full stops (1) ALL MARKS INDEPENDENT | <b>(4)</b> |

Total for Question 15 = 5 marks

| Question Number | Answer  | Mark       |
|-----------------|---|------------|
| <b>16(a)</b>    | change in wavelength / spectral lines (1)<br><br>increase / longer in wavelength<br>OR<br>frequency getting lower (1) | <b>(2)</b> |

| Question Number | Answer  | Mark       |
|-----------------|---|------------|
| <b>16(b)</b>    | Any 3 of:<br><br>strong radio sources (1)<br>matched with faint star like object (1)<br>revealing unusual / highly redshift spectrum (1)<br>precise radio position (of 3C273)<br>determined during lunar occultation (1)<br><br>QWC mark: correct use of technical/astronomical terms (1) | <b>(4)</b> |

Total for Question 16 = 6 marks

| Question Number | Answer               | Mark       |
|-----------------|----------------------|------------|
| <b>17(a)</b>    | 6.25<br>or 2.5 x 2.5 | <b>(1)</b> |

| Question Number | Answer           | Mark       |
|-----------------|------------------|------------|
| <b>17(b)</b>    | $\delta$ (Delta) | <b>(1)</b> |

| Question Number | Answer           | Mark       |
|-----------------|------------------|------------|
| <b>17(c)(i)</b> | $\delta$ (Delta) | <b>(1)</b> |

| Question Number  | Answer                  | Mark       |
|------------------|-------------------------|------------|
| <b>17(c)(ii)</b> | $\varepsilon$ (Epsilon) | <b>(1)</b> |

| Question Number   | Answer           | Mark       |
|-------------------|------------------|------------|
| <b>17(c)(iii)</b> | $\alpha$ (alpha) | <b>(1)</b> |

Total for Question 17 = 5 marks

| Question Number | Answer  |  | Mark       |
|-----------------|---|--|------------|
| <b>18</b>       | <p><b>Ceres</b><br/>Giuseppe Piazzi (1)</p> <p>Any one of:<br/>position predicted in sky<br/>(Bode's Law)</p> <p>found after search of zodiac</p> <p>with large/reflecting telescope</p> <p><b>Pluto</b><br/>Clyde Tombaugh (1)</p> <p>Any one of:<br/>predicted from irregularities in<br/>Neptune's orbit</p> <p>using repeated photographs</p> <p>blink comparator</p> <p>QWC mark: flowing use of English (1)</p> | <p>Insufficient:</p> <p>with a<br/>telescope</p> | <b>(5)</b> |

Total for Question 18 = 5 marks

| Question Number | Answer              | Mark       |
|-----------------|---------------------|------------|
| <b>19(a)(i)</b> | $\alpha$<br>(alpha) | <b>(1)</b> |

| Question Number  | Answer              | Mark       |
|------------------|---------------------|------------|
| <b>19(a)(ii)</b> | $\alpha$<br>(alpha) | <b>(1)</b> |

| Question Number | Answer   | Mark       |
|-----------------|--|------------|
| <b>19(b)(i)</b> | Any one of:<br>highest in sky;<br>crosses observer's meridian; due south | <b>(1)</b> |

| Question Number  | Answer | Mark       |
|------------------|--------|------------|
| <b>19(b)(ii)</b> | 00:15  | <b>(1)</b> |

| Question Number   | Answer                              | Mark       |
|-------------------|-------------------------------------|------------|
| <b>19(b)(iii)</b> | 22:52 (2)<br>allow 1 mark for 23:08 | <b>(2)</b> |

Total for Question 19 = 6 marks

| Question Number | Answer   | Mark       |
|-----------------|--|------------|
| <b>20 (a)</b>   | (1) correct substitution or correct calculation of shift = 40<br><br>(2) correct unrounded answer, e.g. 31 579 etc<br><br>(3) 32 000<br><br>Ignore units | <b>(3)</b> |

| Question Number | Answer  | Mark       |
|-----------------|---|------------|
| <b>20 (b)</b>   | (1) correct substitution or correct unrounded answer, e.g. 1558 etc<br><br>(2) 1600<br><br>+ 1 <b>independent</b> mark for unit (Mpc) | <b>(3)</b> |

Total for Question 20 = 6 marks
