## Sample H10C

ESSAY

What would we do without laptops? Where would we be? How would we cope? For decades Laptops have made a recent contribution to the lives of others: <sup>whether</sup> ~~whether~~ it is in work, at home or even outside. Laptops can be used in every profession; ~~with~~ - with <sup>an</sup> ~~the~~ higher ~~in demand~~ increase in demand each year, it is no wonder why laptops are the most popular and useful invention ever made in the history of mankind!

Doctors call it genius. With hospitals becoming more pressurized, ~~do~~ it puts on more stress for the world of medical sciences. However it is a relief to know that laptops provide a quantum leap of ~~use~~ usefulness and help to ~~maintain~~ <sup>give to</sup> increase the quality of aid and welfare ~~of~~ <sup>hundred times</sup> the people. Laptops provide <sup>hundred times</sup> a more accurate over-view of an injured patient than ~~a~~ the average war-time nurse! It is so accurate in this field that laptops are becoming the focus of the research provided to find the cure <sup>for</sup> ~~to~~ cancer - which was not possible, say, fifty years back.

Musicians call it inspiring - ~~with~~ ~~Et~~ The genre of music changes yearly and ~~people are~~ the

population welcomes new types of music with open arms. A large number of people are getting interested in ~~ele~~ the electronic field of music. A century ago, ~~half the~~ over half the sound-effects we hear today on the radio would not have been <sup>remotely</sup> possible to produce! However, laptops have basic programming softwares that music producers can use to experiment with different sounds... Definitely inspiring.

Children call it magic. Laptops have the ability to do things that no other device can do... well, apart from T.V.'s (but I'd say T.V.'s are very limited). Children have a broad ~~in~~ imagination; a whole universe <sup>inside</sup> ~~in~~ their head. And there is no better invention to compete with this than a laptop. The 'flash' programme enables children to broaden their artistic skills and get more creative - ~~it's~~ - an opportunity not many people from the past ~~of~~ got to experience. With high-quality animation and ~~digital effects~~ mind-blowing digital effects; it laptops give present an interactive world. Also, many teachers prefer to Laptops also ~~have~~ can be highly educational - honestly... it's no wonder why children are

getting smarter.

I call it a whole new world. We, as a society, have come a long way through the use of laptops. For decades, scientists and engineers have worked their hard to improve the look, quality and performance of laptops. Each year, laptops are able to do new & intelligent things - the wonderful thing is that to they never fail to impress and can be used by absolutely anyone in the world. Laptops give people the freedom to do new things, and will inspire generations... ~~Where~~ Honestly, where would we be without laptops?
