**Fig. 4 THE BIG PROJECT IN OTJIVERO**

**A project was set up in 2008 in Otjivero, a small village in Namibia (Namibia is an LEDC in south west Africa). Every person who lives in the village is given N\$100 per month (about £8), which is called the Basic Income Grant (BIG), in an attempt to reduce poverty and encourage economic growth. This can be used for any purpose (e.g. for families to buy food, pay for schooling for children, or to start a small business).**

**This has been organised by non-governmental organisations (NGOs) like the Namibian Council of Churches and the National Union of Namibian Workers.**

**Underline ONE statement which is TRUE about the BIG project.**

**The project was set up by the government of Namibia.**

**The project aimed to help poor people in Otjivero and help the village to develop.**

**People who live in Otjivero have to pay N\$100 per month to take part.**

**The Basic Income Grant has to be used to start a small business.** [1]

**(b) Study Figs 5A and 5B.**

**Fig. 5A A RESIDENT OF OTJIVERO**

**Mark Isaaks**

I started my small shop in August this year after the introduction of the BIG project. It made it possible for me to start the business I had always dreamed of. Now I am able to sell food and drinks. My profit per month is about N\$800. Receiving money from the BIG project helps young people like me to start using their skills and talents.

## **Fig. 5B NEMBWAYA'S STORY.**

### **'I'M DOING VERY WELL'**

**Before the BIG Project, Nembwaya, a 35-year-old mother of seven children, already knew how to bake after spending years working as a cook for a farmer. However she was barely able to feed her children.**

**With the first N\$100 dollars received, she bought a bag of flour, some yeast, firewood and an aluminum sheet. She dug a hole and lit a fire in it. Then she placed an oil drum over the fire. She filled empty sardine cans with a dough she had made and placed them inside the hot drum, replaced the lid and waited. After 20 minutes, Nembwaya had her first batch of mini-loaves of bread.**

**She started selling the mini-loaves for one Namibian dollar each. After 10 months, Nembwaya had made enough money to buy a stove for N\$3000, something that hardly anyone else in the village owned. Now she can bake 250 mini-loaves a day and make a good profit.**

**Her hut is now one of the best in the village. Her children are clean and well fed.**
