

Wednesday 21 May 2014 – Afternoon

GCSE INFORMATION AND COMMUNICATION TECHNOLOGY

B063/02 ICT in Context

Candidates answer on the Question Paper.

OCR supplied materials:

- Pre-release material (inserted)

Other materials required:

None

Duration: 1 hour

Candidate forename					Candidate surname				
--------------------	--	--	--	--	-------------------	--	--	--	--

Centre number						Candidate number			
---------------	--	--	--	--	--	------------------	--	--	--

INSTRUCTIONS TO CANDIDATES

- The Insert will be found inside this document.
- Write your name, centre number and candidate number in the boxes above. Please write clearly and in capital letters.
- Use black ink. HB pencil may be used for graphs and diagrams only.
- Answer **all** the questions.
- Read each question carefully. Make sure you know what you have to do before starting your answer.
- Write your answer to each question in the space provided. Additional paper may be used if necessary but you must clearly show your candidate number, centre number and question number(s).
- Do **not** write in the bar codes.

INFORMATION FOR CANDIDATES

- The number of marks is given in brackets [] at the end of each question or part question.
- The total number of marks for this paper is **60**.
- Your Quality of Written Communication is assessed in questions marked with an asterisk (*).
- This document consists of **12** pages. Any blank pages are indicated.

- 1 Staff at TechMed2014 use hardware and software.

Write the letter of the item that best matches the description in the table below.

The first one has been completed for you.

- A. Backup
- B. Document scanner
- C. Expert system
- D. Fingerprint scanner
- E. Laser printer
- F. Patient information system
- G. Tablet computer

Description	Item
Software used by a doctor to make a diagnosis	C
A copy of a file that can be used if the original is lost or damaged	
A device that reads biometric information	
A device used to convert printed material into electronic format	
A device used to produce paper versions of patient records	
A hand-held device that has a touch screen	
The database used to store patient records	

[6]

- 2 Patient records are stored in a database which can be accessed using a range of devices.

Explain **three** ways TechMed2014 can try to prevent unauthorised access to patient records.
