

Candidate forename		Candidate surname	
Centre number		Candidate number	

**OXFORD CAMBRIDGE AND RSA EXAMINATIONS
GENERAL CERTIFICATE OF SECONDARY EDUCATION**

**B278A
MATHEMATICS C
(GRADUATED ASSESSMENT)
MODULE M8 – SECTION A**

**TUESDAY 1 MARCH 2011: Morning
DURATION: 30 minutes**

SUITABLE FOR VISUALLY IMPAIRED CANDIDATES

Candidates answer on the question paper.

OCR SUPPLIED MATERIALS:

None

OTHER MATERIALS REQUIRED:

Geometrical instruments

Tracing paper (optional)

WARNING

**No calculator can be used for
Section A of this paper.**

READ INSTRUCTIONS OVERLEAF

INSTRUCTIONS TO CANDIDATES

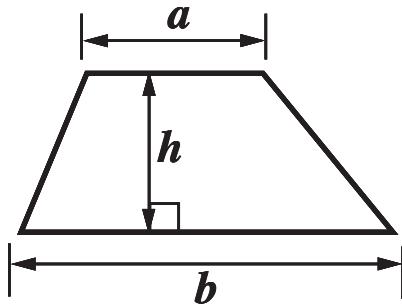

- Write your name, centre number and candidate number in the boxes on the first page. Please write clearly and in capital letters.
- Use black ink. Pencil may be used for graphs and diagrams only.
- Read each question carefully. Make sure you know what you have to do before starting your answer.
- Write your answer to each question in the space provided. Additional paper may be used if necessary but you must clearly show your candidate number, centre number and question number(s).
- Show your working. Marks may be given for a correct method even if the answer is incorrect.
- Answer ALL the questions.

INFORMATION FOR CANDIDATES

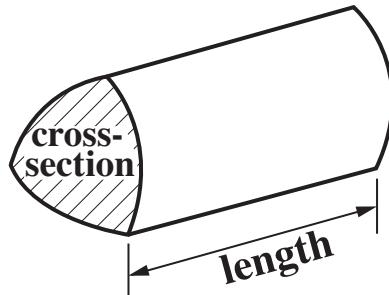

- The number of marks is given in brackets [] at the end of each question or part question.
- The total number of marks for this Section is 25.

FORMULAE SHEET

Area of trapezium = $\frac{1}{2} (a + b)h$

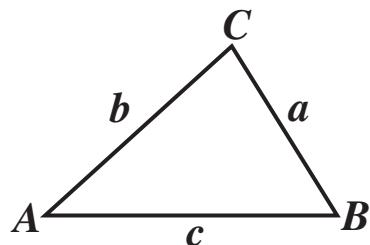

Volume of prism = (area of cross-section) \times length

In any triangle ABC

$$\text{Sine rule} \quad \frac{a}{\sin A} = \frac{b}{\sin B} = \frac{c}{\sin C}$$

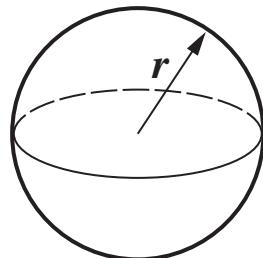

$$\text{Cosine rule} \quad a^2 = b^2 + c^2 - 2bc \cos A$$

$$\text{Area of triangle} = \frac{1}{2} ab \sin C$$

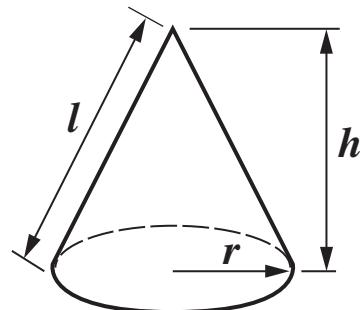

$$\text{Volume of sphere} = \frac{4}{3}\pi r^3$$

$$\text{Surface area of sphere} = 4\pi r^2$$

$$\text{Volume of cone} = \frac{1}{3}\pi r^2 h$$

$$\text{Curved surface area of cone} = \pi r l$$

The Quadratic Equation

The solutions of $ax^2 + bx + c = 0$, where $a \neq 0$, are given by

$$x = \frac{-b \pm \sqrt{(b^2 - 4ac)}}{2a}$$

1 Work out.

$$2\frac{1}{5} + 1\frac{3}{4}$$

**Give your answer as a mixed number in its simplest form.
[3 marks]**

2 (a) Make p the subject of this formula. [3 marks]

$$r = \frac{p^2}{3} - 4$$

(a) _____

(b) Expand and simplify.

$$(x - 5)(x + 2)$$

[2 marks]

(b) _____

3 (a) What is the gradient of the line $y = 3x - 4$? [1 mark]

(a) _____

**(b) Give the y-coordinate of the point where the line
 $y = 3x - 4$ crosses the y-axis. [1 mark]**

(b) _____

**(c) Give the equation of a line parallel to $y = 3x - 4$.
[1 mark]**

(c) _____

4 In this expression a and b represent lengths.

**Which one of these expressions could represent a volume?
Give a reason for your answer. [2 marks]**

$$a^2 + b^2$$

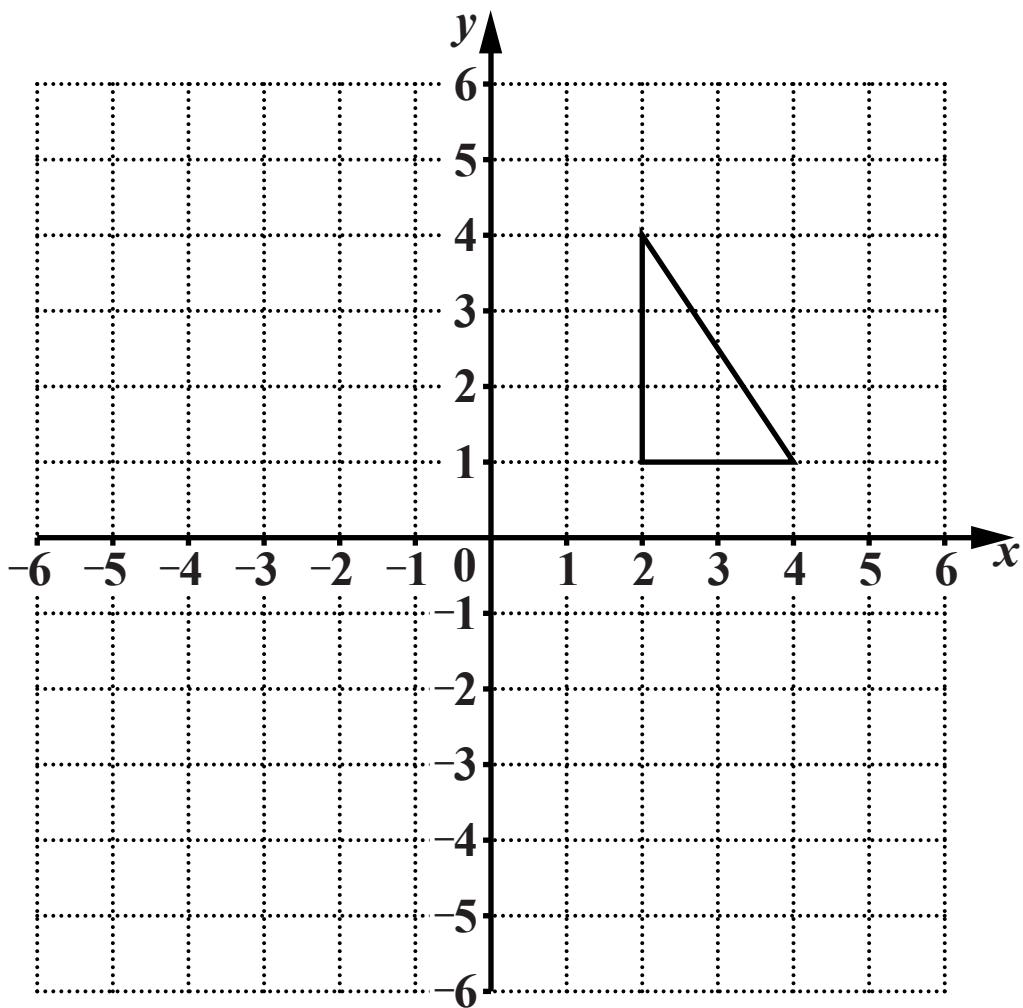

$$\pi a^2(a + b)$$

$$3a + 3b$$

$$\frac{1}{2}a(b^2 + a)$$

_____ because _____

- 5** You may use the diagram below to help you answer the question that follows.

Find the SINGLE transformation that is equivalent to:

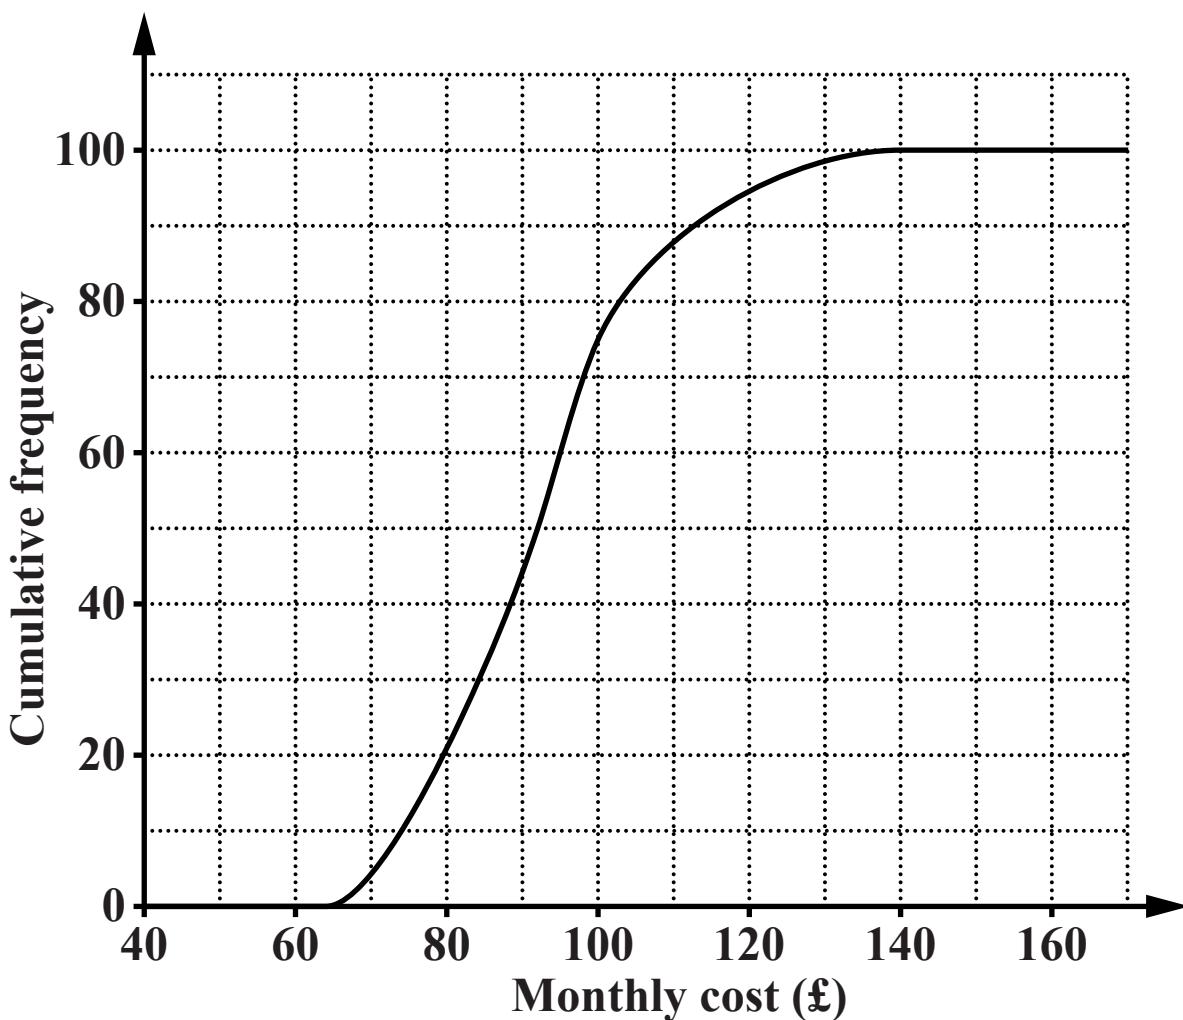

a translation by the vector $\begin{pmatrix} -4 \\ 0 \end{pmatrix}$ followed by a rotation
of 180° about $(0, 0)$. [4 marks]

The single transformation is _____

BLANK PAGE

TURN OVER FOR QUESTIONS 6 AND 7

- 6 The cumulative frequency graph summarises the total monthly cost of gas and electricity for 100 households using the *Gaztec* company.

(a) Find

(i) the median, [1 mark]

(a)(i) £ _____

(ii) the interquartile range. [2 marks]

(ii) £ _____

- (b) *Sparks* is another company providing gas and electricity for households.

In a survey of 100 households using *Sparks*, the median charge was £84 and the interquartile range was £25.

Use this information to make two comparisons between the distributions of the charges of the two companies.

1 _____

_____ [1 mark]

2 _____

_____ [1 mark]

- 7 The average thickness of the Arctic sea ice in 2000 was reported to be 40% less than in 1970.

In 2000, the average thickness of the Arctic sea ice was 1.8 m.

What was its thickness in 1970? [3 marks]

_____ m

Copyright Information

OCR is committed to seeking permission to reproduce all third-party content that it uses in its assessment materials. OCR has attempted to identify and contact all copyright holders whose work is used in this paper. To avoid the issue of disclosure of answer-related information to candidates, all copyright acknowledgements are reproduced in the OCR Copyright Acknowledgements Booklet. This is produced for each series of examinations and is freely available to download from our public website (www.ocr.org.uk) after the live examination series.

If OCR has unwittingly failed to correctly acknowledge or clear any third-party content in this assessment material, OCR will be happy to correct its mistake at the earliest possible opportunity.
