**MARK SCHEMES (2010)**

**Foreword**

***Introduction***

Mark Schemes are published to assist teachers and students in their preparation for examinations. Through the mark schemes teachers and students will be able to see what examiners are looking for in response to questions and exactly where the marks have been awarded. The publishing of the mark schemes may help to show that examiners are not concerned about finding out what a student does not know but rather with rewarding students for what they do know.

***The Purpose of Mark Schemes***

Examination papers are set and revised by teams of examiners and revisers appointed by the Council. The teams of examiners and revisers include experienced teachers who are familiar with the level and standards expected of 16- and 18-year-old students in schools and colleges. The job of the examiners is to set the questions and the mark schemes; and the job of the revisers is to review the questions and mark schemes commenting on a large range of issues about which they must be satisfied before the question papers and mark schemes are finalised.

The questions and the mark schemes are developed in association with each other so that the issues of differentiation and positive achievement can be addressed right from the start. Mark schemes therefore are regarded as a part of an integral process which begins with the setting of questions and ends with the marking of the examination.

The main purpose of the mark scheme is to provide a uniform basis for the marking process so that all the markers are following exactly the same instructions and making the same judgements in so far as this is possible. Before marking begins a standardising meeting is held where all the markers are briefed using the mark scheme and samples of the students' work in the form of scripts. Consideration is also given at this stage to any comments on the operational papers received from teachers and their organisations. During this meeting, and up to and including the end of the marking, there is provision for amendments to be made to the mark scheme. What is published represents this final form of the mark scheme.

It is important to recognise that in some cases there may well be other correct responses which are equally acceptable to those published: the mark scheme can only cover those responses which emerged in the examination. There may also be instances where certain judgements may have to be left to the experience of the examiner, for example, where there is no absolute correct response – all teachers will be familiar with making such judgements.

The Council hopes that the mark schemes will be viewed and used in a constructive way as a further support to the teaching and learning processes.

## Section B

		AVAILABLE MARKS
<b>21</b> slowing down or stopping	[1]	1
<b>22</b> 1.6 mm.	[1]	1
<b>23</b> (a) washer water	[1]	
(b) damage engine, crack cylinder block, etc.	[1]	2
<b>24</b> (a) 50 m.	[1]	
(b) phone police on emergency phone	[1]	2
<b>25</b> (a) no vehicles, only pedestrians allowed, etc.	[2]	
(b) delivery/service vehicles and emergency service vehicles	[2]	4
<b>26</b> any <b>two</b> from  environmentally friendly, increased use of public transport, quicker to city centre than car, less stressful, more relaxing for the driver etc.	[2]	2
<b>27</b> (a) $100 \times 50 \div 62 = 80.6$ (81)	[1]	
(b) $5 \div 25 = 0.2$ l $5.0 - 0.2 = 4.8$  petrol = 4.8 l		
oil = 0.2 l	[2]	3
<b>28</b> any <b>three</b> from  switch off ignition, remove key, chock wheels, put on handbrake, disconnect battery	[3]	3
<b>29</b> slow traffic, reduce accidents, etc.	[2]	2
<b>30</b> any <b>three</b> from  bends, horses, farm animals, slow tractors, muck on roads, pedestrians, etc.	[3]	3

		AVAILABLE MARKS
<b>31</b> cycle lane	[1]	1
<b>32</b> (a) risk of suffocation when bag is deployed	[2]	
(b) over 21, full licence, driving for three years	[3]	5
<b>33</b> <b>Fig. 33.1</b> maximum speed 40 mph	[1]	
<b>Fig. 33.2</b> minimum speed 30 mph	[1]	
<b>Fig. 33.3</b> staggered junction	[1]	
<b>Fig. 33.4</b> two way traffic crossing one way street	[1]	
<b>Fig. 33.5</b> dual carriageway ends	[1]	
<b>Fig. 33.6</b> wild animals	[1]	6
<b>34</b> (a) Medical condition shock	[1]	
Treatment keep warm, reassure	[1]	
(b) suspect internal injuries, could require surgery with anaesthetic	[1]	
(c) any <b>two</b> from open airway, easily monitored, can't cause further injury etc.	[2]	5
<b>35</b> (a) wobble, vibration via steering column	[1]	
(b) any <b>two</b> from poor cornering/braking, accelerated wear (internal and external)	[2]	
(c) any <b>two</b> from increased accident risk, longer stopping distances etc.	[2]	5
<b>36</b> any <b>two</b> from breakdown location, traffic jams, flooding, accidents, etc.	[2]	2

		AVAILABLE MARKS
37	gaps in centre line reduce approaching a bend, solid single or double white lines indicate bend or dead ground etc.	[2] 2
38	(a) <b>Fig. 38.1</b> hidden dip/dead ground <b>Fig. 38.2</b> frost in winter	[1] [1]
	(b) pull into left if approaching car is overtaking, etc.	[1] 3
39	any <b>two</b> from  address, name, medical condition	
		[2] 2
40	The <b>policy holder</b> had an accident. He phoned the <b>insurance company</b> right away. He was able to produce his <b>insurance certificate</b> to the police within twenty four hours. His <b>premium</b> will not increase as his <b>no claims discount</b> was protected.	[5] 5
41	(a) $\text{£}17,250.00 - \text{£}11,700.00 = \text{£}5,550$	[1]
	(b) $\text{£}11,700.00 \div 100 \times 32 = \text{£}3,744.00$ $\text{£}11,700 - \text{£}3,744 = \text{£}7,956$	[3] 4
42	Advantage: any <b>two</b> from  quiet, non polluting, clean, regular, cheap, etc.	[2]
	Disadvantage: any <b>two</b> from  confined to routes with wires/rails disruptive during construction, cannot overtake, passengers board in middle of road, etc.	[2] 4
43	(a) any <b>two</b> from  cuts, bulges, glass/objects in the tread, pressure, tread depth, etc.	[2]
	(b) harsh acceleration/braking, etc.	[1] 3

		AVAILABLE MARKS
44 (a) any two from:		
excess speed/surface water/worn tyres	[2]	
(b) any two from:		
excess speed, lack of concentration, distractions, etc.	[2]	4
45 (a) The gearbox	to select gears	[1]
The clutch	to disengage drive from the engine	[1]
(b) Mechanical system	handbrake – operates on rear wheels only	[1]
Hydraulic system	footbrake – operates on all four wheels	[1] 4
46 (a) painted lines, signage, reflective studs, edge reflectors, chevron markers, etc.	[2]	
(b) carbon monoxide, sulphur dioxide, oxides of nitrogen	[2]	4
47 different speeds for different road types, e.g. urban, rural, dual carriageway, motorway with increasing contact with pedestrians then lower speed etc.	[6]	6
<b>Band 1 ([1]–[2])</b> Knowledge and basic understanding.		
<b>Band 2 ([3]–[4])</b> Relevant knowledge and good understanding.		
<b>Band 3 ([5]–[6])</b> Good knowledge and thorough understanding.		

- 48** Candidates will make reference to pedestrian **and** motorist use of visibility, observation and anticipation when using the road. [12]

## Section B

AVAILABLE  
MARKS

- 19** The **policy holder** had an accident. He phoned the **insurance company** right away. He was able to produce his **insurance certificate** to the police within twenty four hours. His **premium** will not increase as his **no claims discount** was protected. [5]

5

- 20 (a)** medical condition shock etc.

treatment                  keep warm, reassure

[2]

- (b)** suspect internal injuries, could require surgery with anaesthetic [1]

- (c)** any two from:

open airway, easily monitored, can't cause further injury

[2]

5

- 21 (a)** 78 miles  
104 miles

[2]

- (b)** motorist A 86 miles  
 $\quad @ 60 \text{ mph} = 86 \text{ mins}$  [1]  
 $11.00\text{hrs} + 1\text{hr } 26 \text{ mins} = 12.26 \text{ hrs}$  [1]  
 $\quad [1]$

motorist B 94 miles  
 $\quad @ 60 \text{ mph} = 94 \text{ mins}$  [1]  
 $10.45\text{hrs} + 1\text{hr } 34 \text{ mins} = 12.19 \text{ hrs}$  [1]  
 $\quad [1]$

B by 7 mins [1]  
Candidate **must** show calculations

[7]

9

- 22 (a)** weekend £75  
3 days £90  
difference £15

[3]

- (b)**  $6 \times £20 = £120$   
 $7 \times £17.50 = £122.50$   
difference £2.50

		AVAILABLE MARKS
23	(i) cylinder head (ii) cylinder (iii) block (iv) piston (v) crankshaft (vi) sump	[6] 6
24	Traffic noise: candidates will refer to measures taken to minimise impact of noise on local population.  Visual impact; candidates will refer to measures such as tree planting, to materials used etc. to minimise impact on landscape.  Heritage and conservation: candidates will refer to efforts taken to preserve heritage and/or wildlife.	[9] 9
25	(a) commit an offence involved in an accident vehicle not roadworthy etc.  (b) D/L Insurance MOT  (c) Licence of supervising driver  (d) produce at a nominated police station within 5 days  (e) warning fixed penalty report for prosecution (any <b>two</b> correct)	[2] [3] [1] [2] [2] 10
26	(a) to increase the voltage  (b) distributor delivers spark to each cylinder in turn by high tension leads  (c) electrical connections battery terminals security of battery electrolyte level drive belt plug leads etc (any <b>three</b> correct)	[1] [2] [3] 6

		AVAILABLE MARKS
27	Before leaving: rest beforehand no alcohol/drugs etc.  Planning the journey: avoid night/rush hour time breaks find service areas avoid trouble spots etc.	[6] 6
28	(a) age, gender, type of licence, start date, date of birth, health declaration  (b) DVNI Coleraine DVLA Swansea  (c) vision, reactions, judgement, co-ordination  (d) travel costs, alternative travel, loss of job, cost of retest, increased insurance	[3]  [2]  [2]  [3] 10
29	(a) to keep a 2 second gap between you and the vehicle in front etc.  (b) safe distance maintained between etc.  (c) slippery, foggy, heavy rain, snow etc.	[3]  [2]  [3] 8
30	(a) (i) top hose (ii) thermostat (iii) filler cap  (b) refill with antifreeze flush out maintenance etc.  (c) 1. thermostat 2. pressure cap  To obtain optimum performance	[3]  [1]  [2]  [1] 7

- 31** Candidates will make reference to pedestrian **and** motorist use of visibility, observation and anticipation when using the road.

AVAILABLE  
MARKS

**Band 1 ([0]–[4])**

Some knowledge, basic understanding.

Quality of written communication basic.

**Band 2 ([5]–[8])**

Relevant knowledge, good understanding.

Quality of written communication satisfactory.

**Band 3 ([9]–[12])**

Good knowledge, thorough understanding.

Quality of written communication good/very good.

[12]

12

- 32** Candidates will make reference to new measures such as lowering drink/driving limits, increased penalties etc. They will refer to means of enforcement and education campaigns.

**Band 1 ([0]–[4])**

Some knowledge, basic understanding.

Quality of written communication basic.

**Band 2 ([5]–[8])**

Relevant knowledge, good understanding.

Quality of written communication satisfactory.

**Band 3 ([9]–[12])**

Good knowledge, thorough understanding.

Quality of written communication good/very good.

[12]

12

- 33 Candidates will refer to special rules which apply to motorways regarding speed, classes of vehicles/drivers, joining and leaving a motorway and use of motorway facilities, e.g. hard shoulder/telephones or services areas. They will refer to the dangers of speed, volume of traffic, lane discipline etc.
