

**Thursday 26 January 2012 – Morning**

**GCSE TWENTY FIRST CENTURY SCIENCE  
ADDITIONAL APPLIED SCIENCE A**

**A324/02 Life Care (Higher Tier)**

Candidates answer on the Question Paper.  
A calculator may be used for this paper.

**OCR supplied materials:**

None

**Other materials required:**

- Pencil
- Ruler (cm/mm)

**Duration: 45 minutes**

Candidate forename					Candidate surname				
--------------------	--	--	--	--	-------------------	--	--	--	--

Centre number						Candidate number			
---------------	--	--	--	--	--	------------------	--	--	--

**MODIFIED LANGUAGE**

**INSTRUCTIONS TO CANDIDATES**

- Write your name, centre number and candidate number in the boxes above. Please write clearly and in capital letters.
- Use black ink. HB pencil may be used for graphs and diagrams only.
- Answer **all** the questions.
- Read each question carefully. Make sure you know what you have to do before starting your answer.
- Write your answer to each question in the space provided. Additional paper may be used if necessary but you must clearly show your candidate number, centre number and question number(s).
- Do **not** write in the bar codes.

**INFORMATION FOR CANDIDATES**

- The number of marks is given in brackets [ ] at the end of each question or part question.
- The total number of marks for this paper is **36**.
- This document consists of **8** pages. Any blank pages are indicated.

Answer **all** the questions.

- 1 Saskia is a physiotherapist.

She designs exercise programmes to treat skeletal muscular injury.

- (a) Saskia monitors her patient's progress during the programme.

Briefly describe one example of how she might do this.

.....  
.....  
.....

[3]

- (b) Sometimes she has to change the exercise programme before it is completed.

Write down **two** reasons for changing a programme before it is completed.

1 .....

2 .....

[2]

- (c) As a health and fitness practitioner, Saskia needs to have a number of specific personal qualities.

Which of the statements best describe these qualities?

Put ticks (✓) in the boxes next to the **three** best answers.

Saskia is tactful.

Saskia is very good at biology.

Saskia has lots of friends who are famous sports personalities.

Saskia recognises the importance of team work.

Saskia shows empathy.

Saskia is very patient.

- 2 Tracy sees the following headline in a magazine.

### Obesity – the greatest health threat facing the UK

She sees this chart.

It shows the percentage (%) of females and males aged 16–25 in the obese category as measured by their BMI (body mass index).

- (a) (i) Describe the overall trend for females shown in the chart.

..... [1]

- (ii) There were 3.5 million females in this age range in the UK in 2001.  
Use information from the chart to calculate how many of these females were obese.

..... [1]

- (b) Tracy is 20 and worried that she is obese.  
Tracy is 2.0 m tall and has a mass of 124 kg.

- (i) Calculate Tracy's BMI.

$$\text{Use the formula } \text{BMI} = \frac{\text{mass kg}}{(\text{height m})^2}$$

Show your working.

BMI = ..... [2]

- (ii) The BMI categories are shown in the table below.

BMI	category
less than 20	underweight
20–25	normal weight
25.1–29.9	overweight
30 and over	obese

Which category does this put Tracy in?

..... [1]

- (c) Tracy decides to join her local fitness centre.

She is asked questions about her **lifestyle**.

Write down **three** lifestyle questions she should be asked before she can join.

1 .....

- 3 Ralph is on holiday.

He sits in the sun and becomes too hot.

The diagram shows a section through his skin.

- (a) Describe how Ralph's body responds to becoming too hot.

Use the diagram of Ralph's skin and your knowledge of the body's response to temperature change in your answer.

.....  
.....  
.....

[3]

- (b) When Ralph comes home from his holiday he finds a lump on his skin.

He goes to see his GP, who sends him to a specialist.

The specialist needs to test the cells in the lump.

Explain what must happen before the specialist can do any diagnostic tests.

.....  
.....

[2]

- (c) Once a diagnosis has been made, Ralph may need the specialist to provide a course of drug therapy.

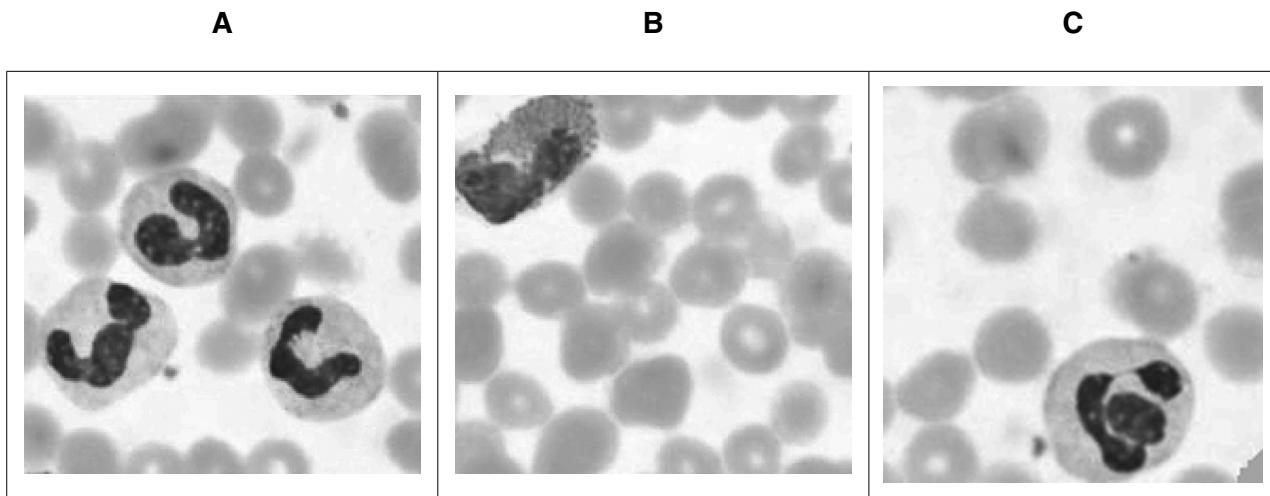

Describe an example of this type of drug therapy that you are familiar with.

.....  
.....

**[Total: 7]**

- 4 (a) Otis works in a hospital pathology laboratory.  
 He tests samples of blood and urine taken for analysis.  
 The diagram shows three of the blood samples.

Otis identifies one sample as normal, one as anaemic and one as infected.

The anaemic sample has fewer red blood cells than normal.

The infected sample has more white blood cells than normal.

Complete these sentences using the letters **A**, **B** or **C**.

Sample ..... is normal.

Sample ..... is anaemic.

Sample ..... is infected.

[1]

- (b) Write down **three other** types of samples, apart from blood or urine, that may be sent to Otis for testing.

1 .....

2 .....

3 .....

[3]

- (c) Otis finds that one of the samples indicates kidney problems.  
 Describe the function of the kidneys.

.....  
 .....  
 .....

[2]

[Total: 6]

- 5 (a) Anita is pregnant.

Name the substance present in her urine which shows she is pregnant.

..... [1]

- (b) Anita visits her midwife regularly and looks through health education information at the clinic. She discovers that the length of pregnancy can vary and it can be affected by smoking. The table shows how the mass of babies at birth can change with the length of the pregnancy in smoking and in non-smoking mothers.

length of pregnancy in weeks	mean birth mass/kg (non-smoker)	mean birth mass/kg (smoker)
36	2.5	2.4
37	2.7	2.5
38	2.9	2.7
39	3.1	3.0
40	3.3	3.1
41	3.4	3.2
42	3.5	3.3
43	3.6	3.4

- (i) Use the data to describe the similarities and differences in mean birth mass in smokers and non-smokers over the period shown.

.....  
.....  
.....  
..... [3]

- (ii) Anita is trying not to smoke during her pregnancy.

Use the data in the table and your knowledge of health education programmes to explain why, despite the expense, such programmes may be cost effective in the long term.

.....  
.....  
.....  
..... [3]
