IGCSE DUTCH

MINIMUM CORE VOCABULARY

This Minimum Core Vocabulary List for the Core Curriculum is primarily intended as a guide for teachers to assist in the planning of work in relation to the Programme of Study.

The assessment tasks for the Core Curriculum will be based on the Minimum Core Vocabulary but candidates should expect to encounter unfamiliar vocabulary.

The Minimum Core Vocabulary does not attempt to contain all numerals and ordinals, words in common use in English, English words in common use in Dutch, cognates, common place names, derivatives or compound nouns, if they can be formed by joining words listed in their literal meanings. Candidates should, however, be expected to be familiar with these.

GENERAL NOTIONS

Candidates will be expected to use and understand the general vocabulary listed below. This vocabulary is not restricted to specific topics and settings can occur in any of the topic areas listed in the syllabus.

SUBJECT CONTENT

AREAS OF EXPERIENCE AND TOPICS

The appendix sets out further details of the syllabus content as expressed in tasks related to Topics and Areas of Experience.

The Topic headings are not always clearly defined and delimited, and there are therefore areas of overlap and duplication. For example, a Topic such as 'Home Life' occurs under Areas of Experience A and overlaps with 'House and Home' in Area of Experience B. In the same way, B6 'Holidays' is closely linked to E1 'Tourism at Home and Abroad'. It is important to maintain all headings, even where there is some repetition, otherwise a key element might be omitted. Cross references are given in such cases.

The examination papers will sample Topics and tasks from the range set out in the following list. It will not necessarily be appropriate to examine Topics individually.

Tasks listed for Section 1 of the Core Curriculum (targeted grades G, F, E) assume situations where requirements and responses are reasonably predictable.

Under each topic, tasks have been listed in three columns, following the pattern of three sections in the examination. The left hand column shows tasks appropriate to Section 1 of the examination (targeted grades G, F, E). The centre column contains tasks targeted at Section 2, i.e. grades D, C. The right hand column contains tasks targeted to Section 3 of the examination (targeted grades B, A, A*).

Candidates entered for Section 3 are expected to have covered tasks defined for all sections of the examination. In addition, candidates aiming at the higher grades (B, A, A*) will be expected to handle a wider range of vocabulary and structures and to demonstrate some or all of the following:

- cope with a greater degree of unpredictability
- understand and give fuller accounts which make use of more complex range of language (for example structures, tense, range of vocabulary)
- give and understand opinions and draw conclusions where necessary
- see the relationship between ideas.
