3. Study the case and answer the following questions :— 10

Research and Development (R & D) is now considered the new star of the Indian economy. Americans who worry about the migration of call centres to India also consider rise of R & D in India as a potential threat. American companies are now setting up R & D centres in India. They are not coming for cheap labour but for India's brain. The list of MNCs setting up R & D centres in India includes General Electric, Microsoft, IBM, Cisco, Intel, General Motors, Astra Zeneca, Motorola, Texas Instruments etc. GE does research in Bangalore on aircraft engines and turbine components. This is helping to reverse the supposed brain drain. Several Indian scientists who had migrated to US are coming back to India. GE plans to raise R & D staff from 1,600 to 2,400 technicians. Bangalore has GE's second largest research centre in the world. The best known Indian R & D companies are in Pharmaceuticals. Biotechnology is a now hot spot with **Biscon** and **Shanta Biotech** leading the way. Less high profile but more significant may be the mushrooming of new companies to do contract R & D for global corporations.

The auto industry is another beehive of innovation. Multinational car companies fully came to India for the huge domestic market. In order to cut costs they used components of lower quality. But soon the interaction between component makers and MNC's led to not just quality improvement but innovations that came of earlier.

Which industry has occupied the status of star industry in India? Give reasons. What is the main reason for the mushrooming of R & D in India favoured by MNCs?

6. Study the case and answer the following questions :—

Recognising the contribution and undisputable position that the company enjoys in the retail segment today, Koutons has recently won the most admired fashion group for the year 2008 by Image Fashion Awards. Further, Koutons Retail Chairman D. P. S. Kohli has been chosen as the most admired fashion face of the year. Mr. Kohli was the clear winner in a consumer poll conducted by Images across the country and 10 cities in India and 4 cities abroad including Vancouver, Dubai, Karachi and Bangkok and was among the largest consumer survey in the fashion and lifestyle segment in India.

10

Koutons Retail, a leading manufacturer of readymade fashion wear, has more than 1,100 outlets and cater to all men, women and children markets. Koutons garments are available in both large and small cities and the product range is comprehensive to meet the fashion needs of all. The New Delhi based Koutons plans to open 1,400 more outlets over the next few years.

Koutons is an integrated apparel manufacturing and retail company with annual revenue of Rs. 800 crore. The in-house team of Koutons works on the designs but the corporate is also in touch with fashion forecast houses in Italy and Europe to decide on the kind of fabric that will be in demand for the coming season.

**Questions :**

- What are the reasons for Koutons to cater to men, women and children markets ?
- What strategies Koutons must adopt to foray into overseas markets ?

संशोधन आणि विकास हा भारतीय अर्थव्यवस्थेचा नवीन तारा म्हणून संबोधिला जातो. भारतामध्ये होणाऱ्या कॉल सेंटर वाढीस तेथील संशोधन व विकास हा भविष्य कालीन धोका आहे असे अमेरिकन यांना वाटते. म्हणून अमेरिकन कंपन्या भारतामध्ये त्याचे संशोधन व विकास केंद्रे उभारतात. ते स्वस्त कामगार म्हणून भारताकडे येत नाहीत, तर येथील बौद्धिक गुणवत्ता यासाठी येतात. भारतामध्ये येणाऱ्या बहुराष्ट्रीय कंपन्यांमध्ये जनरल इलेक्ट्रिक , मायक्रोसॉफ्ट आयबीएम, सीसको, इनटेल, जनरल मोटार्स , अँस्ट्राझेनेका, मोटोरोला व टेक्सास इन्स्ट्रुमेंट्स इत्यादींचा समावेश होतो. जी. ई. ही कंपनी बंगलोरमध्ये हवाईजहाज इंजन व टरबाईन कंपोनेंटवर संशोधन करते. हे भारतामध्ये परत येणाऱ्या बौद्धिक कामाला मदत करते.

अशा या कामामुळे बरेच भारतीय वैज्ञानिक, अमेरिकेतून भारतात परत आले. जी. ई. कंपनीने त्याच्या बंगलोर केंद्रातली कामगार संख्या ही १६०० पासून २४०० पर्यंत वाढवून हे केंद्र दुसऱ्या नंबरचे मोठे केंद्र म्हणून उदयास आणले.

बायस्कॉन आणि शांता बॉयोटेक या भारतातील वैद्यकीय व जैविक तंत्रज्ञान संशोधनात अग्रेसर कंपन्या म्हणून ओळखल्या जातात.

वाहन उद्योग हा नावीन्याचा दुसरा अविष्कार आहे. बहुराष्ट्रीय कंपन्या या भारतामध्ये प्रामुख्याने तेथील बाजार पेठाकडे आकर्षिले आहेत. ते तेथील स्थानिक घटकांचा वापर करून किंमत कपात करत आहेत. लवकरच स्थानिक उत्पादक व बहुराष्ट्रीय कंपन्या यात गुणवत्तेविषयक समन्वय होऊन त्यांच्यामध्ये जे नावीन्य रूपास येणार आहे ते यापूर्वी कोणीही पाहिले नसेल.

१. भारतामध्ये संशोधन व विकास या संकल्पनेने कशा प्रकारे नाविन्यपूर्ण उद्योगाची जागा घेतली आहे ? कारणे द्या.

२. भारतातील संशोधन व विकास वाढ ही बहुराष्ट्रीय कंपन्यांसाठी कशी हितकारक आहे ?

No. of couples	32	45	50	20	10	15	08	20

7. (a) Write the characteristics of the normal distribution.  
 (b) A random variable follows the probability distribution given below,

X	0	1	2	3	4
P(x)	0.12	0.23	0.35	0.20	0.10

Obtain the expected value and variance of X.

- (c) A bag contains 3 white and 6 black balls. If two balls are drawn at random, find the probability that (i) both the balls are white, (ii) both the balls are black, (iii) One of each color.  
 8. (a) State the difference between Correlation and Regression.  
 (b) Find Spearman's rank correlation coefficient for the following data :—

X	50	66	34	21	15	79	42
Y	31	64	53	41	17	73	29

- (c) Find the regression equations for the following data and hence estimate Y when X = 15 and X when Y = 18.

X	10	12	14	19	8	11	17
Y	20	24	25	21	16	22	20

9. (a) Explain the simple average method to find the seasonal indices of a time series.  
 (b) Fit a straight line trend equation by method of least squares and estimate the trend values. Also find an estimate for the year 2009.

Year	2001	2002	2003	2004	2005	2006	2007	2008
Production	80	90	92	83	94	99	92	104

- (c) From the following data calculate the cost of living index number by the family budget method. Also obtain the expenditure of the person in the year 2010 if his expenditure in 2010 is ₹ 600.

Group	Price in 2007	Price in 2010	Weight

### **Rising waters may leave Mumbai at sea**

A recent study has warned that the predicted sea level rise of 50 cm by 2050 could prove seriously damaging for Mumbai. The research, carried out by Alex De Sherbinin and two other scholars, suggest that storm surges, coupled with a rise of 50 cm in the sea level, will render coastal and low-lying areas uninhabitable.

The researchers claimed that Mumbai vulnerability to climate extremes such as storms playing up in tandem with the sea level rise was higher because of the poor drainage system and the fact that the city lies in a flood-prone region.

According to the researchers, the city's location on several seismic faults as well as its unsanitary methods of disposing raw sewage and industrial waste into the water and air surrounding it adds to the risk. They warned that the susceptible railways system would need to be elevated and the drainage system upgraded in order to reduce the threat from the rising sea. They noted that while projects were underway to upgrade the drains running alongside the rail lines, they had not been designed keeping in mind the sea level rise. The team cited another study which showed that among all the coastal cities Mumbai was most likely to experience damage because of a rise in sea level.

Moreover, the report said, with shifting likely in the subsurface of reclaimed lands, many buildings might become uninhabitable due to structural instability.

Mumbai, with almost 55% of its population residing in slums, is also vulnerable because of lack of dykes and other coastal 'armaments' to deal with the sea level rise. The study says the overall vulnerability of the city remains high and it will find it hard to cope with flooding and sub-surface shifting of reclaimed and landfilled areas despite the fact it has a resilient unofficial social response to crisis and nelaborate disaster management plan.

### **Questions :**

- (a) What will be impact of climate change on coastal low lying areas in Mumbai? Why ? 4
- (b) Why is Mumbai likely to become vulnerable to climate change ? 2
- (c) What were the flaws in planning which made Mumbai vulnerable to storms? 2
- (d) What are the suggestions made by the researchers to reduce vulnerability of Mumbai to storm water ? 2

**Villages to get climate managers**

The battle against climate change is all set to go down to every village in the country. In a bid to create awareness about global warming, the government has decided to train and appoint "Climate managers" in villages whose main task will be to create awareness and take steps for sustainable development at the grassroots level. Besides, they will be trained to handle natural disasters and prepare their areas to face such crises. Three agencies have been tasked with implementing the project-the ministries of panchayati raj and science and technology and the chair sustainable development at the Indira Gandhi National Open University (Ignou).

The programme was aimed at meeting the challenges of climate change and sustainable development. "People at the grassroots will be the first to bear the brunt of climate change. So, we have decided to train people in villages to be climate managers.

"The task of managing climate change will be customized as per local needs. A man and a woman climate manager from each gram sabha will be trained in the science and art of managing climate change and enhance their capacity to cope with natural calamities."

**Questions :**

- (a) Why did the Government decided to appoint climate managers in every village? 2
- (b) What will be the main task of the climate managers ? 2
- (c) Name the agencies which will shoulder the responsibility of training climate manager. 2
