- Answer any FOUR questions.
- Marks will be awarded for workings, layout and presentation including, where appropriate, folios and dates.
- Dates should show the day, month and year.
- Calculators may be used.

1. **This is a Household Budget Question.**

Answer all parts of this question:

When the Feeney household checked their Analysed Cash Book at the end of December 2012, they discovered that their actual income and expenditure for the 12 months differed from the budgeted figures (contained in the Budget Comparison Statement *on page 10 of Section A*) due to the following:

- The salaries of the Feeney household decreased by 7%.
- There are two children in the household. The monthly child benefit decreased by €14 per child from 1 April 2012.
- The actual interest received for the year was 3% less than budgeted, due to an increase in the tax paid on interest.
- The Feeney household won €1,000 in a local club fundraiser.
- Mortgage payments increased by €75 per month from 1 February 2012.
- Car insurance was €30 less than budgeted.
- The Feeney household had a kitchen fire, so their house insurance was 15% greater than budgeted.
- Household costs were 7½% greater than budgeted.
- Car costs were 12% greater than budgeted.
- Clothing and footwear costs were as budgeted.
- Light and heat costs were €12 per month greater than budgeted.
- Medical insurance was 5% less than budgeted, due to changing their health insurance company.
- Entertainment costs were €50 less per month except for the two months of March and December.
- Presents cost an additional €400 due to family confirmations and communions.
- The family holiday cost 6% less than budgeted.

- (A) Using the Budget Comparison Statement *on page 10 of Section A*, enter the appropriate figures into the ‘**Actual**’ column.

Show the differences between the ‘**Actual**’ and ‘**Budget**’ figures by completing the column marked ‘**Difference**’. Use a **plus** or **minus** sign in front of each figure in that column.

Note: Use ‘**plus**’ sign if ‘**Actual**’ is GREATER than the ‘**Budget**’ figure.
 Use ‘**minus**’ sign if ‘**Actual**’ is LESS than the ‘**Budget**’ figure.

Example:

	Budget	Actual	Difference
	500	800	+ 300
	900	120	- 780
Total	1,400	920	- 480
