Did you know that primary school children and footballers are most at risk from diseases caused by dog fouling?

The Green Dog Walkers® Pledge

The Green Dog Walkers Pledge®

I hereby volunteer to accept a Green Dog Walkers® Armband/bag dispenser and pledge to take part in the campaign as follows:

1. I will wear the armband/bag dispenser as often as possible when walking my dog(s).
2. I will at all times clean up after my dog and dispose of the bag in a bin.
3. When others walk my dog I will encourage them to clean up after my dog.
4. I understand that wearing the armband/bag dispenser indicates that I will carry extra doggie bags to distribute to other dog walkers if requested.
5. At no time when wearing the armband/bag dispenser will I aggressively confront other dog walkers about dog fouling. I fully understand that Green Dog Walkers® is intended to be a non-confrontational and friendly campaign to change attitudes about dog fouling.
6. I agree that Green Dog Walkers® may contact me to take part in questionnaires or surveys regarding my Green Dog Walker experience, to help judge the success of the project.

Building a better world for children

A Refugee's Journey

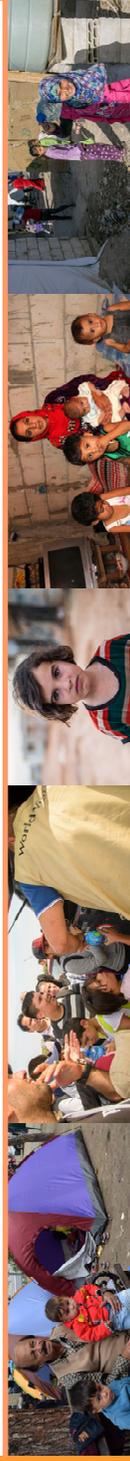

A 2,254 km walk, taking an estimated 452 hours

- Thousands of families are fleeing war and violence in Syria in the hope of finding peace and a future.
- To understand that journey the Google map above shows the walking directions for a family of refugees fleeing Aleppo in Syria, trying to get to Horgoš, Serbia in Europe.
- The family would have to walk more than 2,254 kilometres to get to Serbia's border with Hungary.
- It would take 452 hours - about 50 days - if they walked eight hours per day and were able to cover a full 40 kilometres per day.
- On this difficult journey a family would have to carry everything they own, mind young children and stop to look for food.
- "It was very cold, and we didn't have blankets to cover ourselves," said Muhammed, a 72-year-old Syrian refugee who had stopped at a park in Belgrade, Serbia, with his two grandchildren and daughter-in-law. Some families are sleeping in tents, others out in the open.
- Some countries have closed their borders to refugees but many are willing to make that long, uncertain and dangerous journey.
- World Vision has been distributing relief packs to tired refugees, which include bottled water, bananas, anti-bacterial wipes, honey packets and fruit. For families with infants, World Vision has provided baby food and nappies.
