

JUNIOR CERTIFICATE EXAMINATION, 2009
PAPER X of ENGLISH - ORDINARY LEVEL

To be used in answering
SECTION 7 - MEDIA STUDIES

What the Campaign is about

In the world today, over 240 million children, some as young as five, are working in full-time employment. Child Labour involves children in the making of bricks, working with machinery in agriculture, carpet weaving, domestic labour, construction work, the making of matches and fireworks and hundreds of other activities that deny children the right to full-time education.
