**LEAVING CERTIFICATE EXAMINATION, 2011**

**WEDNESDAY 22 JUNE 2011 – MORNING 9.30 - 12.00**

## **AGRICULTURAL ECONOMICS – ORDINARY LEVEL** **(320 marks)**

Answer **fifteen** questions from Part I and **four** questions from Part II.  
You should not spend more than one hour on Part I.

### **PART I (120 marks)**

Answer **fifteen** questions.  
Write the answers in the spaces provided.  
All questions carry equal marks.

### **PART II (200 marks)**

Answer **four** questions.  
Write the answers in your answer book(s).  
All questions carry equal marks (50 marks).  
Do **not** write answers to Part II on this question paper.

**REMEMBER TO RETURN THIS QUESTION PAPER WITH THE ANSWER BOOK(S)  
USED TO ANSWER THE QUESTIONS IN PART II.**

## PART I (120 marks)

Answer **fifteen** questions.

Write the answers in the spaces provided.

All questions carry equal marks.

1. Place in order of importance (1, 2, 3) how each of the following contributes to Irish agricultural output:

Tillage and  
Horticulture

Beef and Milk  
Production

Sheep and  
Pigs

2. The production function is used to describe the relationship between \_\_\_\_\_ and \_\_\_\_\_.

3. State **two** criteria which may guide farmers in making production decisions:

(i) \_\_\_\_\_

(ii) \_\_\_\_\_

4. Irish pig producers continue to improve efficiency on their farms. This means that they are now producing \_\_\_\_\_ meat in \_\_\_\_\_ time each year. (Use the words **less** or **more** where appropriate.)

5. What is the function of **Bord Bia**?

---

---

6. State the payment for the following factors of production:

(i) Capital: \_\_\_\_\_

(ii) Labour: \_\_\_\_\_

7. The following figures are from the books of a farm account on 31 December 2010:  
Fixed Assets €400,000 Current Assets €150,000 Liquid Assets €60,000 Current Liabilities €30,000.  
Using the relevant figures above, calculate the Liquidity Ratio. Show your workings.

Answer:

Workings:

8. State **one** economic effect the development of the bio-energy industry in Ireland might have on Irish agriculture.

---

---

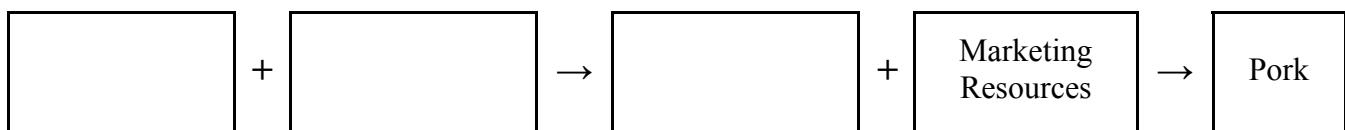

9. The Net Worth on a farm balance sheet equals Total Assets minus \_\_\_\_\_

10. The **Consumer Price Index (CPI)** measures \_\_\_\_\_

**11.** State **two** services provided by Teagasc for Irish farmers:

- (i) \_\_\_\_\_  
(ii) \_\_\_\_\_

**12.** Complete the food chain for pork in the spaces provided:

**13.** State **two** reasons why farmers prepare farm accounts:

- (i) \_\_\_\_\_  
(ii) \_\_\_\_\_

**14.** The individual farmer is a price taker. Explain what this means.

---

---

**15.** Enter the appropriate price elasticity of demand (PED) in each of the spaces provided.  
**(Elastic, unit elastic or inelastic)**

|       |                               |  |
|-------|-------------------------------|--|
| (i)   | Elasticity of Milk is $-0.3$  |  |
| (ii)  | Elasticity of Beef is $-1.25$ |  |
| (iii) | Elasticity of Wool is $-1$    |  |

**16.** State **one** example of ‘joint products’ in Irish agriculture.

---

---

**17.** A ‘condition of average’ or ‘average clause’ applies to property insured by farmers. Explain what this means.

---

---

**18.** Fill in the **three** other components (Ps) of the marketing mix in the spaces provided:

|  |              |  |
|--|--------------|--|
|  | <b>PRICE</b> |  |
|--|--------------|--|

**19.** State **one** example of an EU directive. \_\_\_\_\_

**20.** State **two** economic effects that the poor weather conditions during the past two winters had on the Irish agricultural sector:

- (i) \_\_\_\_\_  
(ii) \_\_\_\_\_

*Remember to return this question paper with the answer book(s) used to answer the questions in Part II.*

## PART II (200 marks)

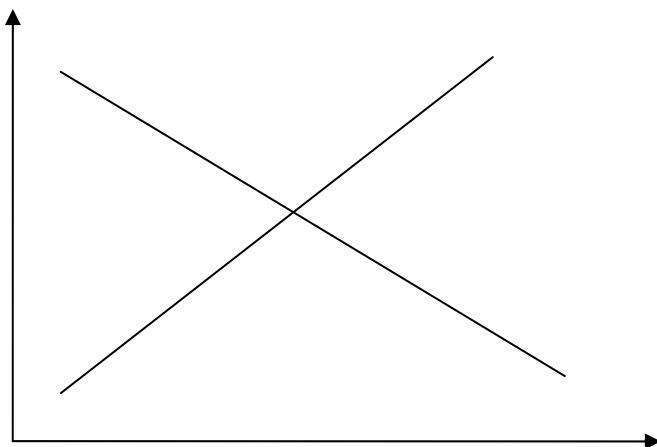

Answer **four** questions.

Write the answers in your answer book(s).

All questions carry equal marks (50 marks).

**Do not write** answers to Part II on this question paper.

1. The diagram below shows the market supply and demand for an agricultural product.

- (a) (i) Copy the diagram into your answer book. Label the axes and the market Demand and Supply curves.
- (ii) Mark in the point of equilibrium **and** explain what this point means.
- (iii) Explain the reasons for the slope of the Demand curve **and** the Supply curve.
- (b) (i) State **four** reasons for an increase in the demand for any agricultural commodity.
- (ii) In **each** case, explain why the demand increases.

[50 marks]

2. (a) (i) Explain the term 'part-time farming'.
- (ii) State and explain **two** positive and **two** negative effects of part-time farming on Irish agriculture.
- (b) Poor economic conditions affect Irish agriculture in many ways.  
State and explain **three** effects of poor economic conditions on farming in Ireland.

[50 marks]

3. Distinguish between **each** of the following, using examples where appropriate:

- (a) Secured and Unsecured Loans;
- (b) VAT and Capital Acquisition Tax;
- (c) Viable Farmer and Non-Viable Farmer;
- (d) Fixed Assets and Current Assets in a farm Balance Sheet.

[50 marks]

4. (a) Two direct payments received by farmers are:

- (i) The Disadvantaged Areas Scheme
- (ii) The Single Payments Scheme (i.e. Single Farm Payment).

Explain the purpose of **each** of the above payments.

(b) State and explain **two** other sources of income for farmers.

(c) Farmers who own their land and buildings are generally better off than farmers who do not.

Outline **three** benefits for farmers of owning their farms.

[50 marks]

5. (a) Explain what is meant by the term ‘developing country’.

(b) Outline **four** economic problems regularly experienced by developing countries.

(c) Explain **four** difficulties that developed countries experience when providing Food Aid to developing countries.

[50 marks]

6. The following is a monthly cash flow budget for a farm for the first six months of 2012.

**Monthly Cash Flow Budget for a farm: January - June 2012**

|                              | <b>January</b> | <b>February</b> | <b>March</b>  | <b>April</b>  | <b>May</b>    | <b>June</b>   | <b>Total</b>  |
|------------------------------|----------------|-----------------|---------------|---------------|---------------|---------------|---------------|
|                              | €              | €               | €             | €             | €             | €             | €             |
| <b>Receipts</b>              |                |                 |               |               |               |               |               |
| Milk                         | 1,000          | 2,500           | 8,500         | 9,000         | 9,500         | 10,000        | 40,500        |
| Calves, cows & cattle        |                | 4,000           | 5,000         | 5,350         | 5,700         | 4,250         | 24,300        |
| Single Farm Payment          | 22,400         |                 |               |               |               |               | 22,400        |
| <b>A. Total Receipts</b>     | <b>23,400</b>  | <b>6,500</b>    | <b>13,500</b> | <b>14,350</b> | <b>15,200</b> | <b>14,250</b> | <b>X</b>      |
| <b>Payments</b>              |                |                 |               |               |               |               |               |
| Livestock purchases          |                |                 | 4,250         |               | 3,000         |               | 7,250         |
| Machinery & equipment        |                | 30,000          |               |               |               | 2,750         | 32,750        |
| Machinery operating expenses | 1,100          | 1,100           | 1,100         | 1,100         | 2,500         | 3,250         | 10,150        |
| Feedstuffs                   | 2,500          | 2,500           | 2,000         | 4,000         | 4,300         | 4,300         | 19,600        |
| Electricity                  | 1,100          | 1,000           | 600           | 600           | 725           | 800           | 4,825         |
| Loan repayments              | 900            | 900             | 900           | 900           | 900           | 900           | 5,400         |
| Household expenses           | 2,000          | 2,000           | 1,600         | 1,600         | 1,600         | 1,650         | 10,450        |
| <b>B. Total Payments</b>     | <b>7,600</b>   | <b>37,500</b>   | <b>10,450</b> | <b>8,200</b>  | <b>13,025</b> | <b>13,650</b> | <b>90,425</b> |
| <i>Net Balance (A - B)</i>   | 15,800         | -31,000         | 3,050         | 6,150         | 2,175         | 600           | <b>Y</b>      |
| <i>Opening Balance</i>       | 3,500          | 19,300          | -11,700       | -8,650        | -2,500        | -325          | 3,500         |
| <i>Closing Balance</i>       | 19,300         | -11,700         | -8,650        | -2,500        | -325          | 275           | 275           |

- (a) (i) State **two** uses of a cash flow budget for a farmer.
- (ii) Calculate the expected Total Receipts for the first six months of 2012 (marked ‘X’ in the budget).
- (iii) Calculate the expected Net Balance for the first six months of 2012 (marked ‘Y’ in the budget).
- (iv) Explain what the monthly Net Balance figure means for the farm.
- (v) State which month will be financially the best for the farm. Explain your answer.
- (vi) State which month will be financially the most difficult for the farm. Explain your answer.
- (b) If the farmer was unable to continue with the loan repayments at the agreed level, outline **one** possible option for the farmer.

**[50 marks]**
