Marking Scheme

French

Higher Level

Note to teachers and students on the use of published marking schemes

Marking schemes published by the State Examinations Commission are not intended to be standalone documents. They are an essential resource for examiners who receive training in the correct interpretation and application of the scheme. This training involves, among other things, marking samples of student work and discussing the marks awarded, so as to clarify the correct application of the scheme. The work of examiners is subsequently monitored by Advising Examiners to ensure consistent and accurate application of the marking scheme. This process is overseen by the Chief Examiner, usually assisted by a Chief Advising Examiner. The Chief Examiner is the final authority regarding whether or not the marking scheme has been correctly applied to any piece of candidate work.

Marking schemes are working documents. While a draft marking scheme is prepared in advance of the examination, the scheme is not finalised until examiners have applied it to candidates' work and the feedback from all examiners has been collated and considered in light of the full range of responses of candidates, the overall level of difficulty of the examination and the need to maintain consistency in standards from year to year. This published document contains the finalised scheme, as it was applied to all candidates' work.

In the case of marking schemes that include model solutions or answers, it should be noted that these are not intended to be exhaustive. Variations and alternatives may also be acceptable. Examiners must consider all answers on their merits, and will have consulted with their Advising Examiners when in doubt.

Future Marking Schemes

Assumptions about future marking schemes on the basis of past schemes should be avoided. While the underlying assessment principles remain the same, the details of the marking of a particular type of question may change in the context of the contribution of that question to the overall examination in a given year. The Chief Examiner in any given year has the responsibility to determine how best to ensure the fair and accurate assessment of candidates' work and to ensure consistency in the standard of the assessment from year to year. Accordingly, aspects of the structure, detail and application of the marking scheme for a particular examination are subject to change from one year to the next without notice.

APPENDIX 1

Modified Marking Scheme

A modified marking scheme is applied to the work submitted by candidates who have been granted one or a combination of the following arrangements:

- use of a tape recorder.
- use of a computer with the spell-check facility enabled.
- use of a scribe.
- waiver in relation to spelling and grammar.

For French Leaving Certificate Higher Level this means that errors in spelling and in certain grammatical elements are not penalised.

Reading Comprehension and Written Production

Spelling: do not underline words that are misspelt or which have missing or incorrect accents, even when pronunciation is affected. We are regarding incorrect accents as spelling errors which are not to be penalised.

Grammar: the grammatical elements which are not to be penalised can be judged by imagining that you are hearing the answer on a tape / CD. Only mistakes that would be picked up when listening should be penalised.

Example 1:

The candidate writes *Elle a allée*. Incorrect auxiliary “avoir” could be heard on a CD, so underline as a mistake and penalise.

Example 2:

The candidate writes *Elle est allé*. Omission of agreement should **not** be underlined and not penalised as it would not have been picked up on a CD.

Example 3:

For Production Écrite, if the candidate writes: *A mon avi nous ne faison pas beacoup des chose pour les san-abri. L'organisations comme St. Vincent de Paul faisent beacoup*, don't underline or penalise *avi, beacoup, fison, chose* or *san-abri*, as these are spelling mistakes. Do underline and penalise *l'* and *faisent* as these grammatical errors would be heard on a recording.
