Dear Sir

YOU, YOUR ^{or 2/c} 4x4 AND THE GREAT OUTDOORS ^{u/c} ③
#

Do the actions of 4x4 owners really have an impact on the planet? Consider what a simple action such as driving down a beach can do:

④ --- ♦ Ghost crabs are killed, some estimates suggest that up to three die for every kilometre travelled by a vehicle.

♦ Newly hatched turtles that normally race headlong for the sea can become trapped in the vehicle tracks, where they're easy meat for predators.

♦ Nesting birds such as terns and oyster-catchers are disturbed, or their eggs or young threatened by vehicle traffic.

⑤ 1. # BEFORE YOU GO ^{u/c} (3x) ⑥
#

1.1 Enrol for a recognised 4x4 course that includes eco-friendly driving techniques as part of the syllabus.

1.2 Research the area to which you are travelling so that you understand local customs and sensibilities. For example, it is considered extremely bad manners to enter a kraal uninvited - always announce your presence as you would at a neighbour's home. In Lesotho you should never camp on land without the local headman's consent.

2. ON THE MOVE

2.1 Stick to existing tracks.

The shorelines of rivers and swamps form an environment that hosts an extraordinary variety and abundance of creatures and plants. In addition to the permanent residents, multitudes of terrestrial creatures make daily visits to drink particularly during the dry season.

⑭ 9 water

With their specialist bills and varied hunting strategies, myriad fish-eating birds make their living along the water's edge. Amphibious creatures visit the littoral from the watery side. On cool, sunny days hippos and crocodiles slumber on small beaches, in the heat of summer they snooze below on submerged sandbanks.

Thirsty travellers will march kilometres to slake their thirst. Most will drink cautiously and then move off, ever wary of predators. Only the very large will cavort and play in the water. Whether playing or drinking, fishing or hunting they all make a splash.

⑮

Along the Khwaiti River the lions are nonchalant about crossing shallow rivers, but are far more reluctant to swim the deeper stretches of water. Although African penguins are masters of the aquatic world, like all birds they must visit the land to breed. They are tough and waterproof.

Meneer

JY, JOU 4X4 EN DIE BUILELEWE

③

Het die optrede van 4x4 eienaars regtig 'n impak op die pla-
neet? Neem in ag wat 'n eenvoudige optrede soos 'n rit op die
strand kan doen:

④ Krewes word doodgery, volgens raming word tot drie doodgery
vir elke kilometer wat 'n voertuig beweeg.

◆ Pasgebore skilpaaie wat normaalweg blindelings na die water
beweeg, kan in die voertuigspore val, waar hulle maklik
prooi vir roofvoëls word.

◆ In die broeityd word voëls soos seeswaels en oester-vangers
gepla, of hul eiers of kleintjies word deur voertuie be-
dreig.

⑤ 1. # VOOR JOU REIS ^{blk (3x)} ⑥

1.1 Registreer vir 'n erkende 4x4 kursus wat eko-vriendelike
bestuurstechnieke as deel van die sillabus insluit.

1.2 Doen navrae oor 'n area voordat jy reis, sodat jy die
plaaslike leefwyse verstaan. Dit is byvoorbeeld, is dit
uiters swak maniere om 'n kraal ongenooi binne te gaan -
kondig altyd jou teenwoordigheid aan soos wat jy by jou
buurman se huis sou doen. In Lesotho mag jy nie kamp
voordat toestemming van die hoofman verkry is nie.

2. OP DIE PAD

2.1 Ry op bestaande spore.

Direkteure: A. Chinery (Voorsitter), M. Emmott (UD), J. Carlin (Nie-uitvoerend), R. Pickard (Nie-
uitvoerend), G. Lorentz (Toere)

⑫ Die randgebiede van riviere en moerasse vorm 'n omgewing met 'n buitengewone oorfloed en verskeidenheid van diere en plante. Bo en behalwe die permanente inwoners, besoek menige ander landdier die gebied gedurende die droë seisoen.

⑭ 9 water

Met hul gespesialiseerde snawels en jagvaardighede, leef tallose vis-etende voëls langs die waterkant.

Amfibiese wesens maak ook dikwels hulle opwagting daar. Op koel, sonnige dae sluimer seekoëie en krokodille op klein sandstroke en in die hitte van die somer slaap hulle onder die sandbanke onder die water.

⑬ Regs-
blok

Dorstige reisigers sal kilometers loop om hul dors te les. Die meeste sal behoedsaam drink en dan weg beweeg, altyd bewus van roofdiere. Slegs die grotes sal bokspring en in die water speel. Of hulle speel of drink, visvang of jag, almal plons in die water.

⑮

Langs die Khwaiti Rivier steek die leeus ongeërg die vlak riviere oor, maar is meer huiwerig om in dieper water te swem. Alhoewel Afrika pikkewyne meesters van die waterwêreld is, moet hulle soos alle voëlsoorte, op die land broei. Hulle is taai en waterbestand.
