TECHNICAL DRAWING SG 711-2/1

Vraag 1

| | | |
|--|----|--|
| Figuur 1.1 toon die vooransig en boaansig van 'n woning en 'n lugdraad EF. Bepaal: | | |
| 1.1.1 Die ware lengte van die lugdraad EF | 5 | |
| 1.1.2 Die ware vorm van die dakwy ABC | 6 | |
| 1.1.3 Die ware hoek van die lugdraad met die dakgewel BE | 2 | |
| | 13 | |

Figuur 1.2 toon 'n isometriese aansig van lynstuk AB. Die lynstuk is parallel met die vertikale vlak en 15 mm voor die vertikale vlak. Punt A en B is onderskeidelik 10 mm en 30 mm vanaf die horisontale vlak. Die ware lengte van lynstuk AB is 40 mm. Maak gebruik van die gegewe X-Y lyn en bepaal:

| | | |
|-------------------------------------|---|--|
| 1.2.1 Die vooransig van die lynstuk | 4 | |
| 1.2.2 Die boaansig van die lynstuk | 2 | |
| 1.2.3 Die snyssore VS en HS | 4 | |

| | | |
|--------------------|----|--|
| | 10 | |
| Lynwerk en netheid | 1 | |
| Totaal | 24 | |

Question 1

Figure 1.1 shows the front view and top view of a dwelling and an aerial wire EF.

Determine:

| | | |
|--|---|--|
| 1.1.1 The true length of the aerial wire EF | 5 | |
| 1.1.2 The true shape of roof the side ABC | 6 | |
| 1.1.3 The true angle between the roof gable BE and the aerial wire | 2 | |

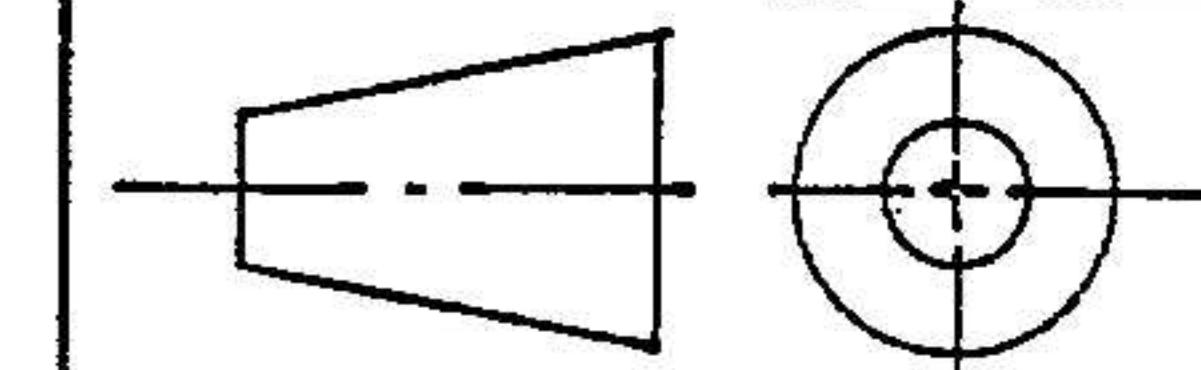

| | | |
|--|----|--|
| | 13 | |
|--|----|--|

Figure 1.2 shows the isometric view of a line segment AB. The line segment is 15 mm in front of the vertical plane and parallel to the vertical plane. Points A and B are 10 mm and 30 mm respectively from the horizontal plane. The true length of line segment AB is 40 mm. Make use of the given X-Y line and determine:

| | | |
|--|---|--|
| 1.2.1 The front view of the line segment | 4 | |
| 1.2.2 The top view of the line segment | 2 | |
| 1.2.3 The traces VT and HT | 4 | |

Vraag 4

Figuur 4 toon 'n skyf asook die baan waarop dit moet rol. Bepaal:

4.1 Die lokus van punt P wanneer die skyf op die ronde baan rol vir een omwenteling vanaf punt A tot by B.

18

4.2 Die lokus van punt P wanneer die skyf vir 'n verdere halwe omwenteling rol op die reguit baan vanaf punt B in die rigting van A.
