GEOGRAPHY
INTERMEDIATE 2

Candidates should answer **four** questions: Section A

Question 1
and
Question 2

AND

Section B

any **two** questions from
Questions 3 to 7

Candidates should read the questions carefully. Answers should be clearly expressed and relevant.

Credit will always be given for appropriate sketch-maps and diagrams.

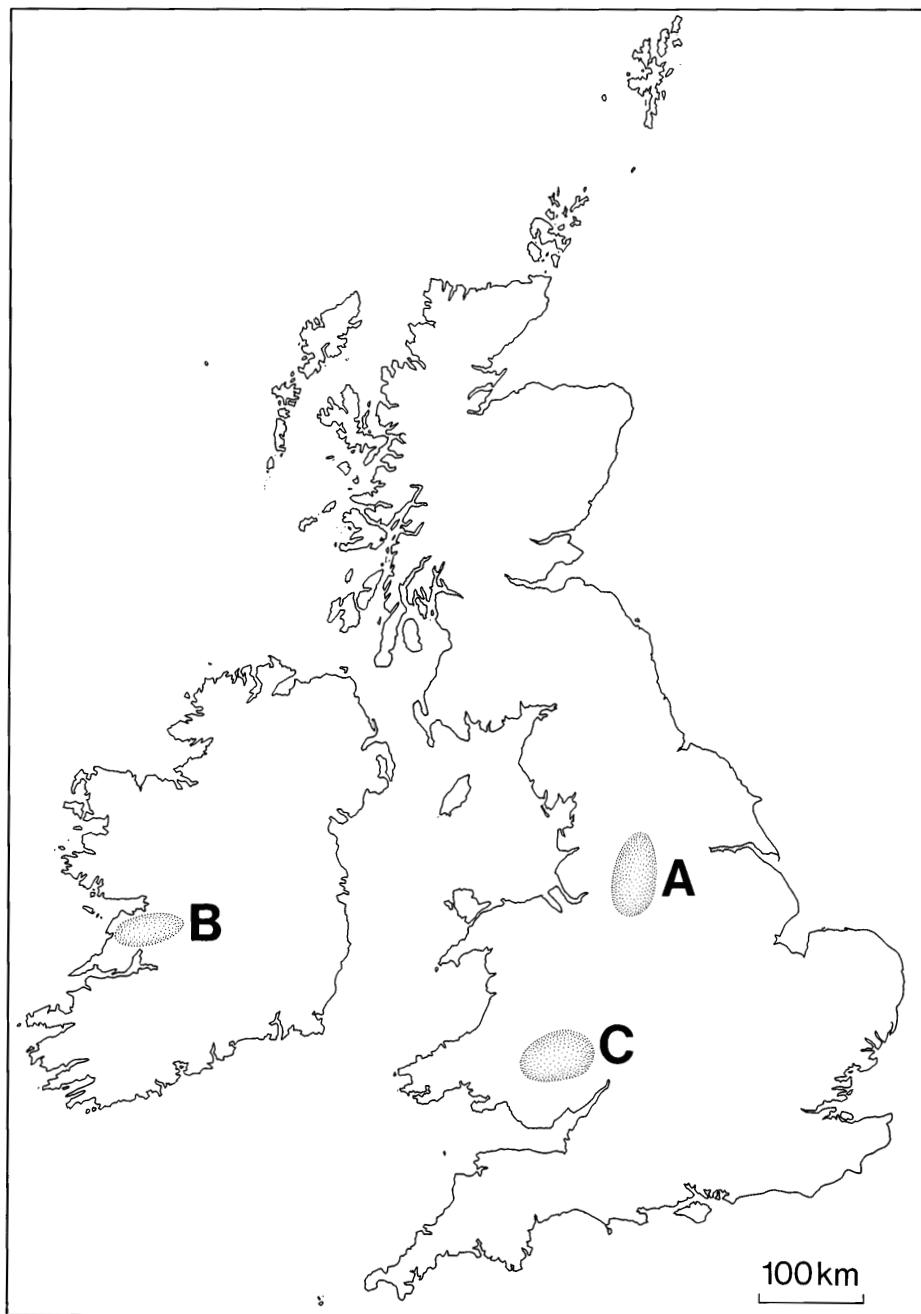

Write legibly and neatly, and leave a space of about one cm between the lines.

All maps and diagrams in this paper have been printed in black only: no other colours have been used.

SECTION A

IN THIS SECTION YOU MUST ANSWER QUESTION 1 AND QUESTION 2.

Question 1: Physical Environments**Reference Diagram Q1A**

- (a) Look at Reference Diagram Q1A.

Name the **three** areas of upland limestone shown on the map.

3

1. (continued)

(b) Study the Ordnance Survey Map Extract (No 1744/OL2).

- (i) Match each of the following landscape features found on the map with the correct grid reference.

Limestone pavement	Gorge	Shake Hole	Pot Holes
---------------------------	--------------	-------------------	------------------

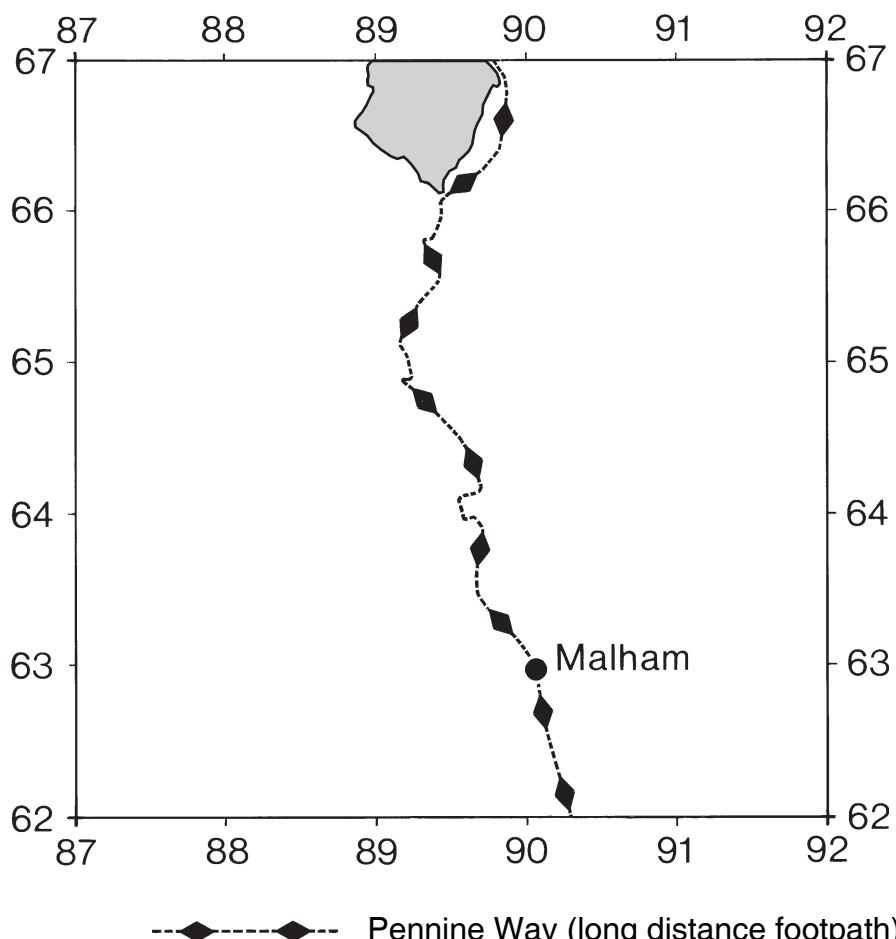

Choose from:

Grid References	872662	914638	903647	873647	906654.	4
-----------------	--------	--------	--------	--------	---------	---

- (ii) For **one** of the features mentioned above, **explain** how it was formed.

You may wish to use a diagram(s) in your answer. 4

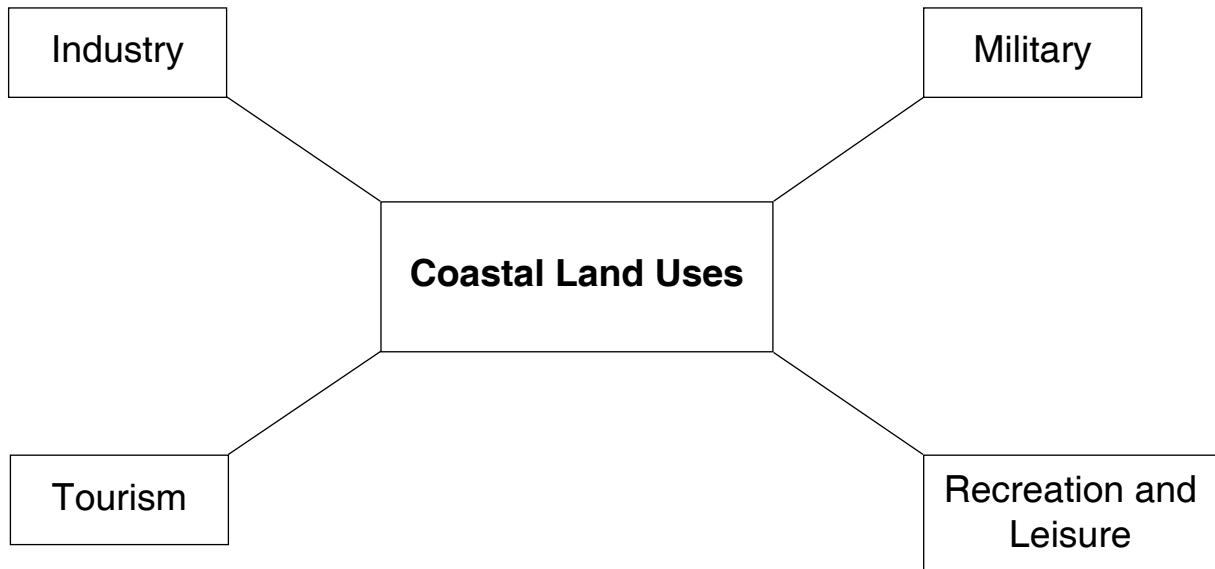

Reference Diagram Q1B

- (iii) Study the Ordnance Survey Map Extract (No 1744/OL2) and Reference Diagram Q1B.

Explain why this is a suitable route for the Pennine Way. 4

1. (continued)

Reference Diagram Q1C

- (c) (i) Select any **two** of the above land uses.

For a **coastal** area you have studied, describe the **economic benefits** and **environmental problems** for each land use selected. 6

- (ii) How do public **and** voluntary organisations try to reduce the problems you identified in part (i)? 4

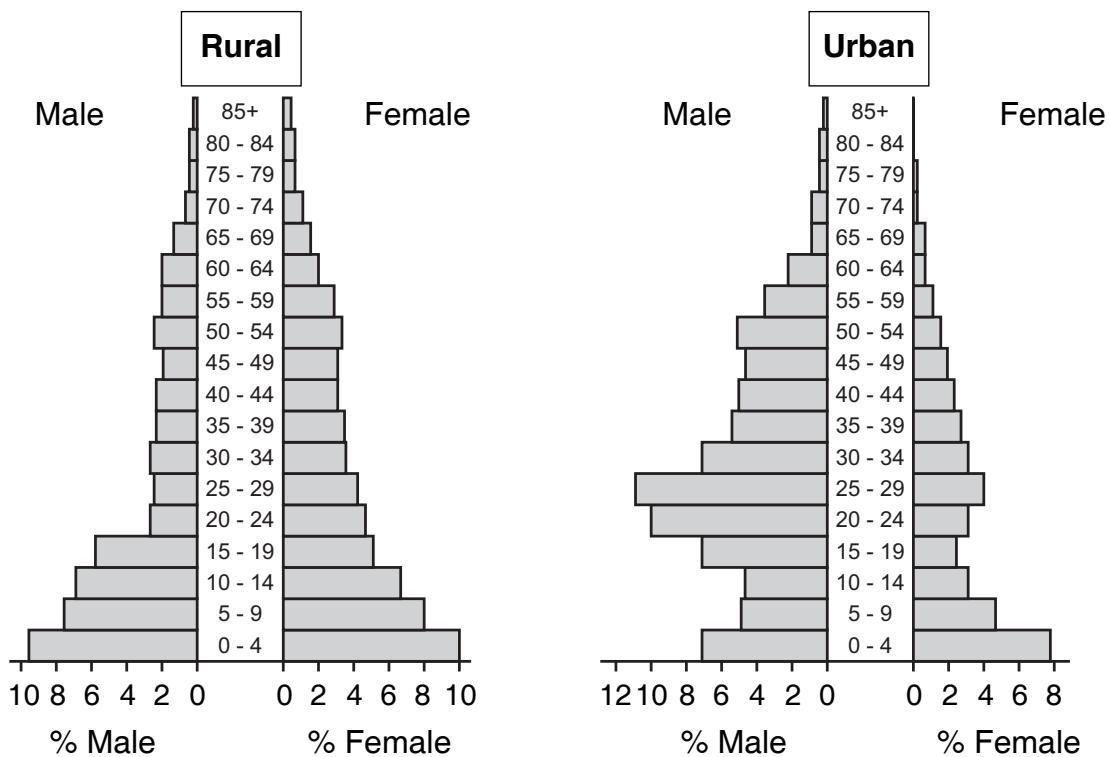

(25)

[END OF QUESTION 1]

NOW GO ON TO QUESTION 2

Question 2: Human Environments

Reference Diagram Q2A: Population Pyramids for an Economically Less Developed Country (ELDC)

(a) Look at Reference Diagram Q2A.

(i) Describe the main **differences** in the population structures between the **rural** and **urban** areas, shown in Reference Diagram Q2A, in an ELDC. 3

(ii) Suggest reasons for the differences you described in (a)(i). 4

Reference Diagram Q2B: Infant Mortality Statistics

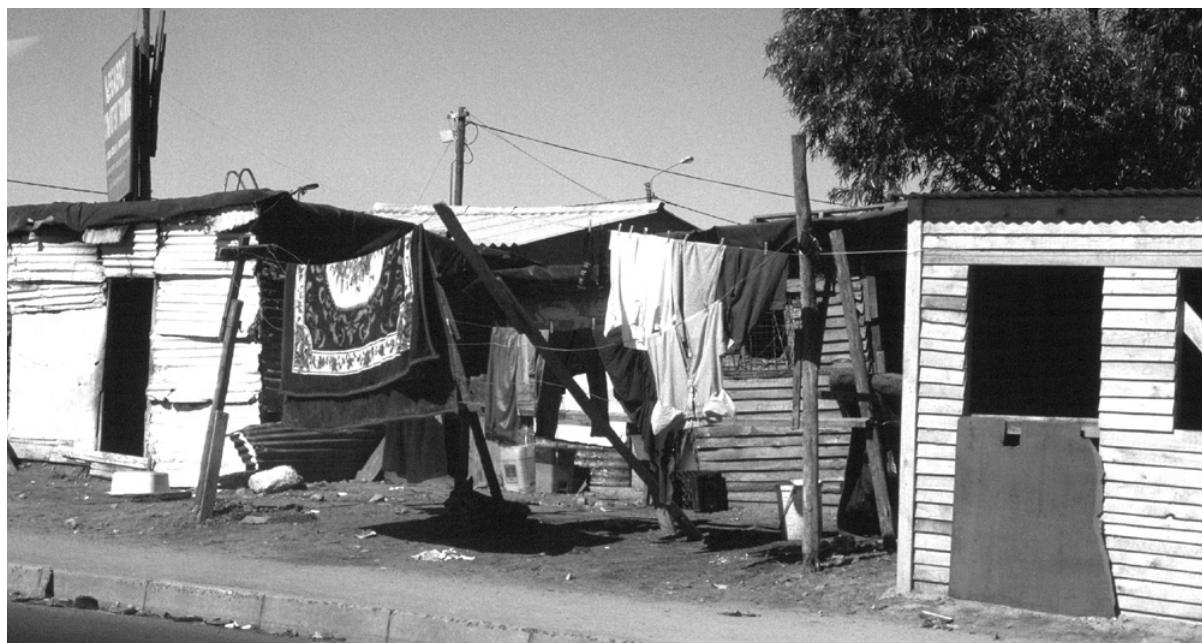

Country	Infant Mortality per 1000 live Births
USA	6
UK	5
India	54
Bangladesh	60

(b) **Explain** why Economically More Developed Countries (EMDCs) have a low infant mortality rate. 3

[Turn over

2. (continued)

Reference Diagram Q2C

- (c) For any named Economically Less Developed city you have studied, describe measures taken to improve the quality of life in shanty towns.

5

Reference Diagram Q2D: Recent Changes in Agriculture in Economically Less Developed Countries (ELDCs)

Increased use of
Chemical fertilisers

Increased
Mechanisation

- (d) What benefits **and** problems have changes such as those shown in the diagram brought to ELDCs?

5

2. (continued)

Reference Diagram Q2E: Nueva Condomina—Murcia in Spain

The shopping centre includes a 15 screen multiplex and a 13 700 m² Hypermarket. There is parking for 6500 cars.

- (e) What are the advantages **and** disadvantages of this or any other Edge of Town shopping development you have studied?

5

(25)

[END OF SECTION A]

NOW TURN TO SECTION B AND ANSWER TWO QUESTIONS

[BLANK PAGE]

SECTION B

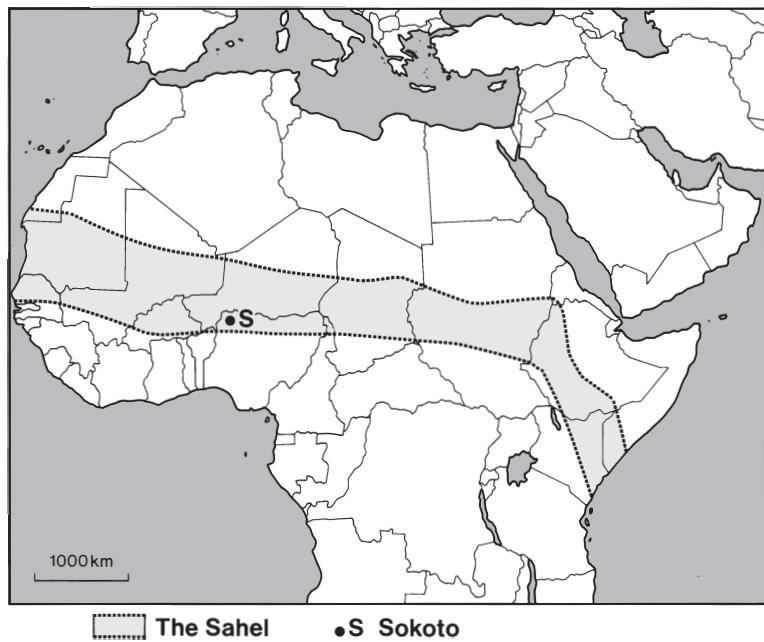

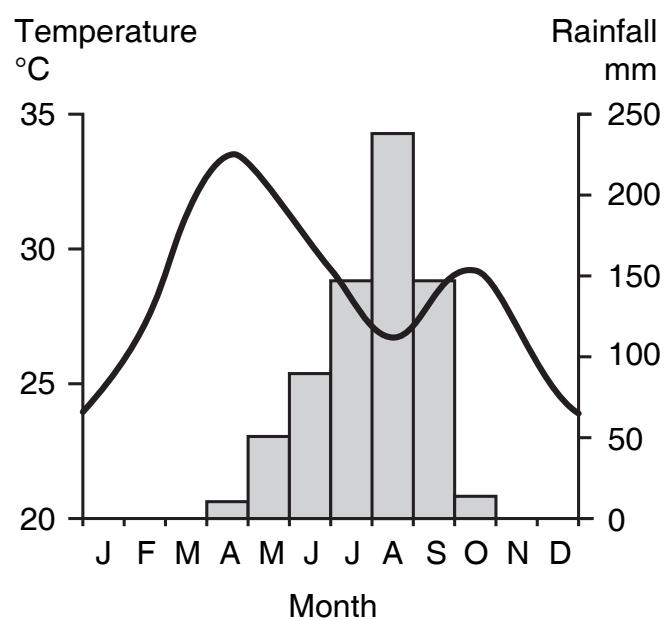

Environmental Interactions

Answer any two questions from this section.

Choose from

- | | | |
|------------|--|------------------|
| Question 3 | Rural Land Degradation | (Pages 10 to 11) |
| Question 4 | River Basin Management | (Pages 12 to 13) |
| Question 5 | European Environmental Inequalities | (Page 14) |
| Question 6 | Development and Health | (Page 15) |
| Question 7 | Environmental Hazards | (Page 16) |

[Turn over

Question 3: Rural Land Degradation**Reference Diagram Q3A: Sokoto, Nigeria****Location****Reference Diagram Q3B: Sokoto, Nigeria****Climate**

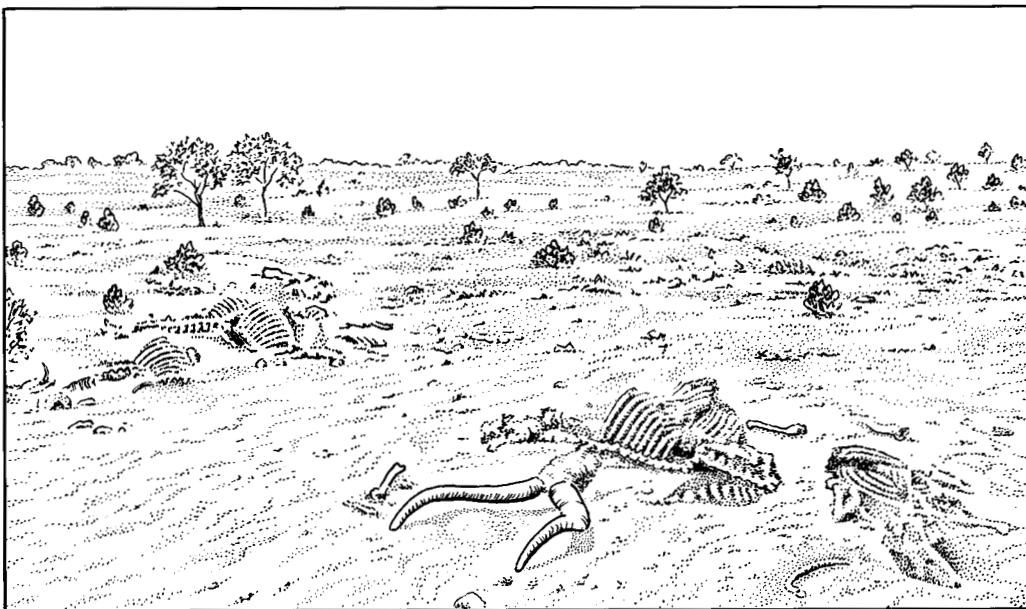

- (a) (i) Study Reference Diagrams Q3A and Q3B above.

Explain why the climate of Sokoto might cause desertification in the surrounding area.

3

3. (a) (continued)

Reference Diagram Q3C: Desertification

- (ii) Study Reference Diagram Q3C.

Some countries are trying to reduce desertification.

- (a) Describe the methods used.
(b) Do you think these methods are successful?

Explain your answer.

4

- (b) (i) For a forested area you have studied, describe how farming can lead to land degradation.

4

- (ii) Describe what can be done to prevent deforestation.

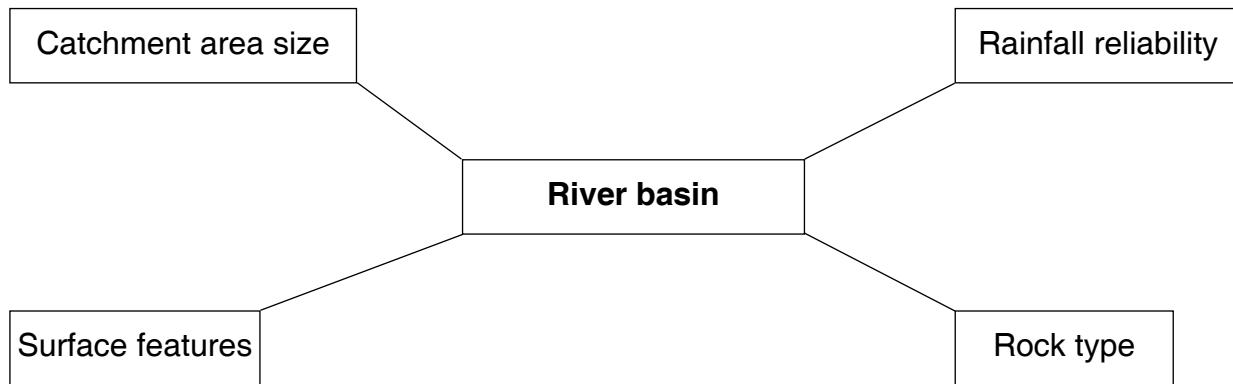

4

(15)

[Turn over

Question 4: River Basin Management

Reference Diagram Q4A: Physical Characteristics of a River Basin

(a) Study Reference Diagram Q4A.

Why are some river basins better suited to water management projects than others?

4

Reference Diagram Q4B: Nile River Basin

(b) Study Reference Diagram Q4B.

For the Nile River basin, or any other river you have studied, what are the benefits of managing the river?

4

4. (continued)

Reference Diagram Q4C: Murray–Darling River Basin

2,000,000 householders live in the Murray–Darling river basin area.

(c) Study Reference Diagram Q4C.

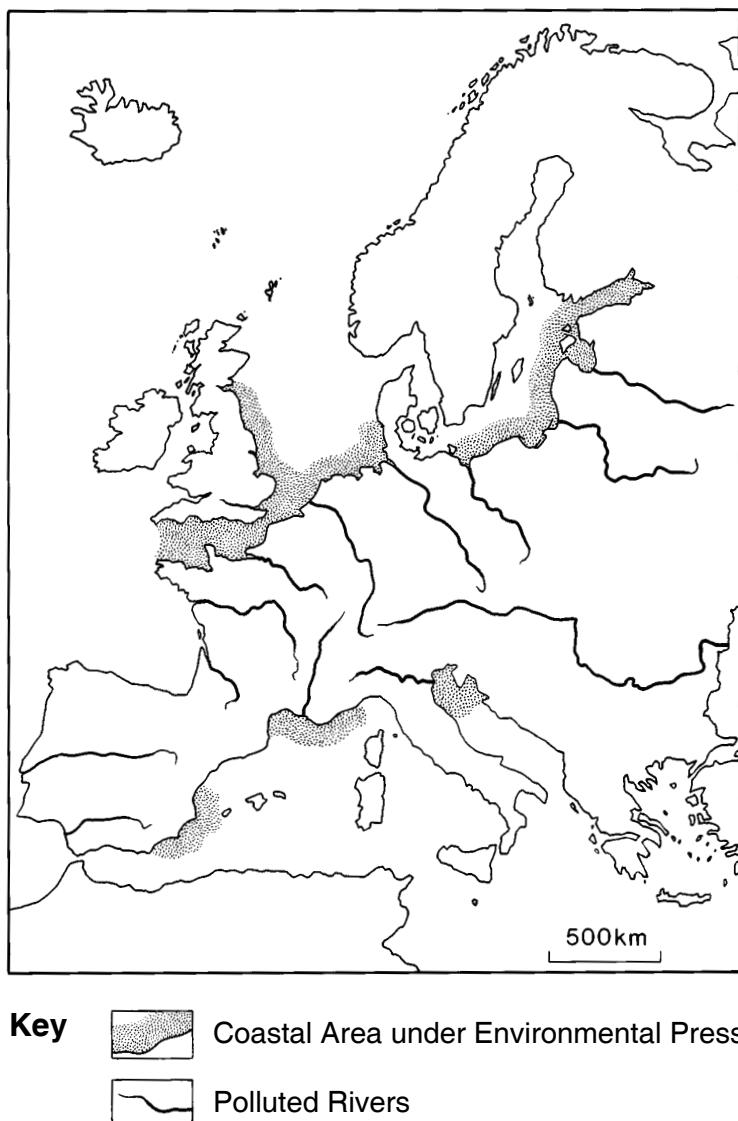

- (i) What factors, other than household use, can increase the demand for water? Give reasons for your answer. 4
- (ii) Water control projects can cause political problems. Describe some of these problems. 3

(15)

[Turn over

Question 5: European Environmental Inequalities

Reference Map Q5A: Selected European Coastal Areas and Rivers under Environmental Pressure

- (a) Study Reference Map Q5A.

Coastal areas are under increasing environmental pressure.

Referring to economic **and** social factors, **explain** why such areas are under threat. 5

- (b) For any **two** rivers you have studied, **explain** differences in their environmental quality. 3

- (c) (i) What methods have been used to improve environmental quality in either a coastal or mountain area you have studied? 4

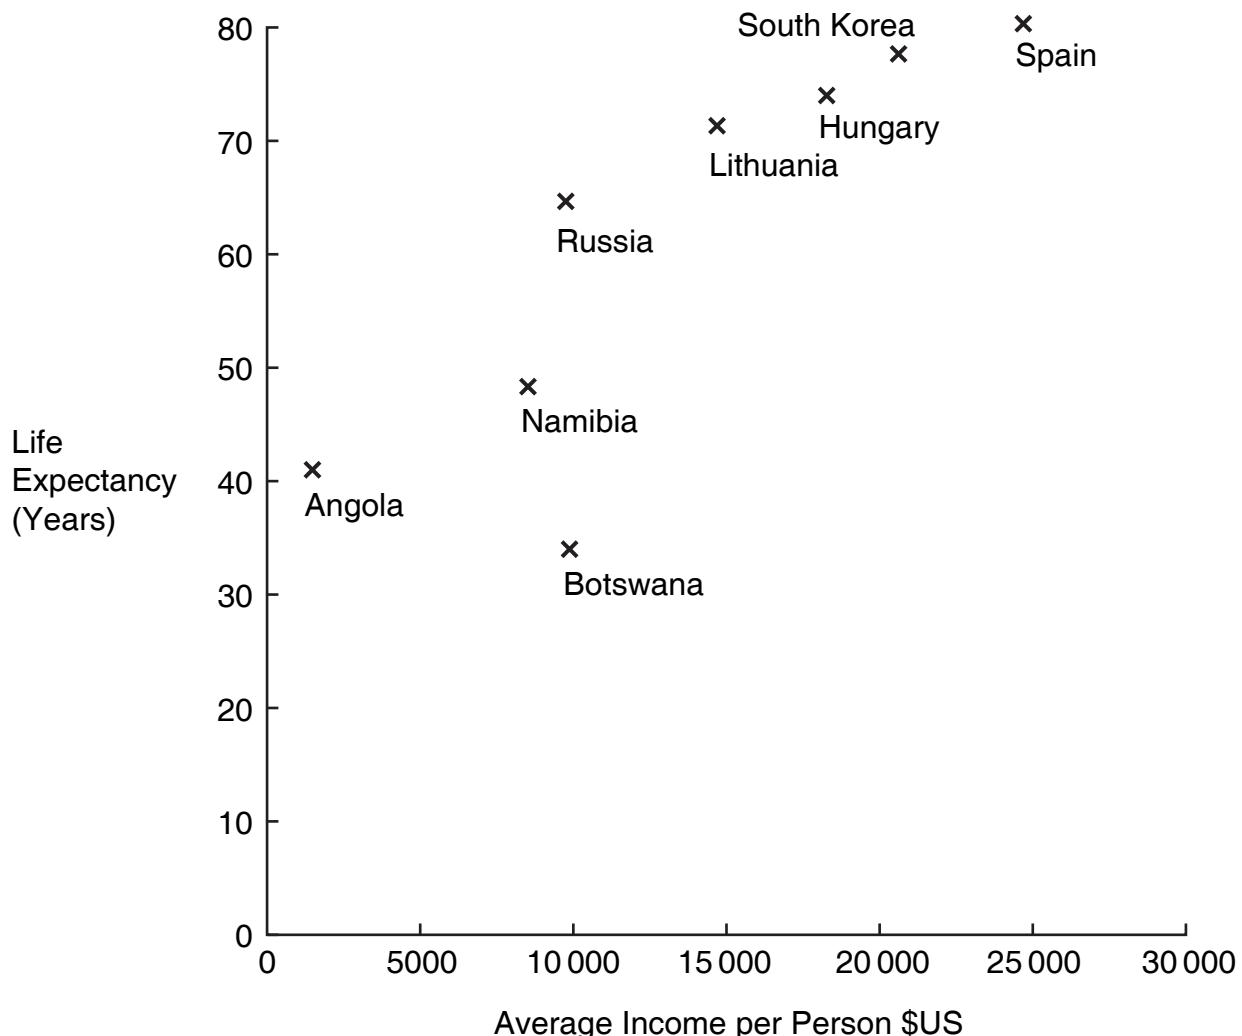

- (ii) Have these methods been successful?

Give reasons for your answer. 3

(15)

Question 6: Development and Health

Reference Diagram Q6A: Levels of Wealth and Life Expectancy

(a) Study Reference Diagram Q6A.

- (i) Describe **in detail** the relationship between average income and life expectancy. 3
- (ii) Why are combined indicators such as the Human Development Index (HDI) more reliable methods of measuring a country's overall level of development? 4

- (b) (i) For heart disease **or** malaria, what are the consequences of the disease for the population in an affected area? 4
- (ii) For the disease chosen in (b)(i), how successful are the methods used to control it?

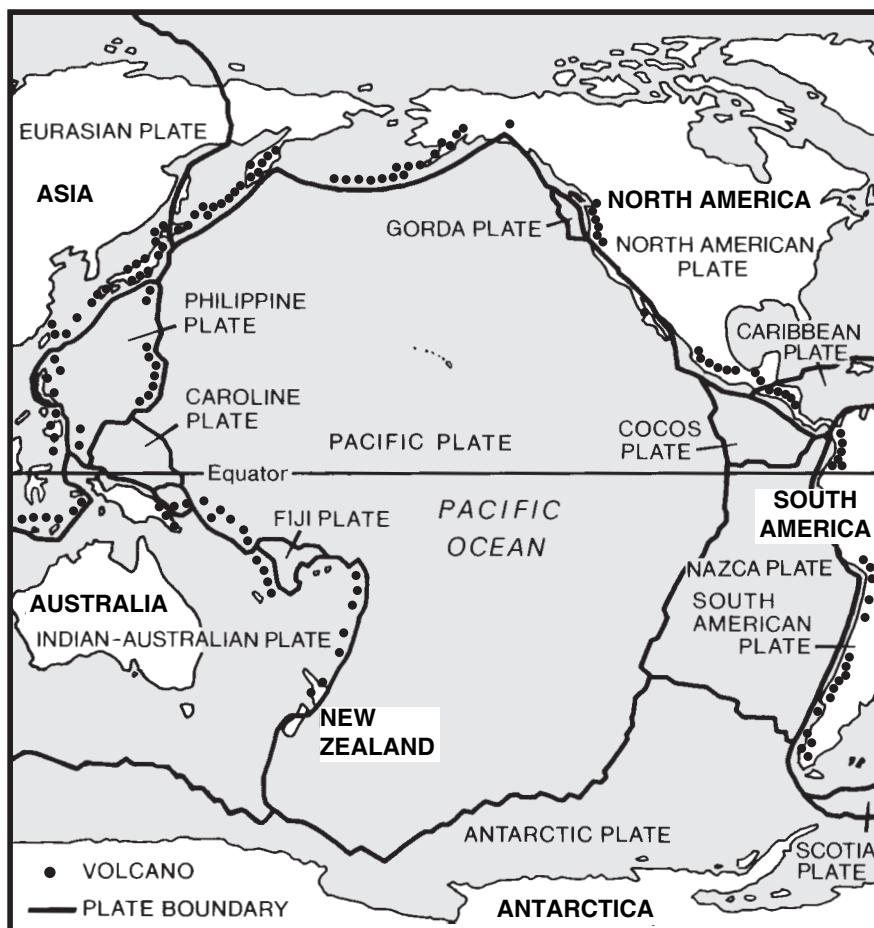

Explain your answer. 4

(15)

[Turn over

Question 7: Environmental Hazards

Reference Diagram Q7A: Pacific Ring of Fire

(a) Study Reference Diagram Q7A.

Explain the distribution of tectonic activity in the area shown. 3

(b) Referring to an earthquake **or** volcanic eruption you have studied:

(i) describe methods of predicting the hazard; 3

(ii) **explain** the importance of both short term **and** long term aid in reducing the effects of the hazard. 4

(c) For a named tropical storm you have studied, describe **in detail** its impact on the landscape **and** population. 5

(15)
