GEOGRAPHY
STANDARD GRADE
Credit Level

All questions should be attempted.

Candidates should read the questions carefully. Answers should be clearly expressed and relevant.

Credit will always be given for appropriate sketch-maps and diagrams.

Write legibly and neatly, and leave a space of about one centimetre between the lines.

All maps and diagrams in this paper have been printed in black only: no other colours have been used.

1.

Reference Diagram Q1A

		Marks	
		KU	ES
1. (continued)			
This question refers to the OS Map Extract (No 1743/124) of the Dolgellau area and Reference Diagram Q1A on <i>Page two</i>.			
(a)	(i) Match each of the features named below with the correct grid reference. Features: pyramidal peak; corrie; truncated spur; hanging valley . Choose from grid references: 711130, 723125, 715123, 733110.	3	
	(ii) Explain how one of the features listed in (a)(i) was formed. You may use diagrams to illustrate your answer.	4	
(b) Reference Diagram Q1B: Selected Settlement Functions 			
Look at Reference Diagram Q1B. Using map evidence, compare the main functions of Barmouth and Dolgellau. You must refer to both similarities and differences in your answer.			6
(c) Find area Z shown on Reference diagram Q1A. Why is this area suited to commercial forestry?		4
