**UNIVERSITY OF LONDON**

**279 0063 ZA**

**BSc degrees and Diplomas for Graduates in Economics, Management, Finance and the Social Sciences, the Diploma in Economics and Access Route for Students in the External Programme**

**Information Systems Project**

Friday, 2 June 2006 : 10.00am to 1.00pm

Candidates should answer all **FIVE** of the following questions.

The examiners will evaluate answers to **all five** questions alongside the submitted project report.

PLEASE TURN OVER

1. Why did you choose your particular topic area? Discuss how you formulated your research question. Did the research question need to be refined or developed as the work progressed?
2. How did you go about searching for literature in this topic area? What sort of literature did you find? Did the literature that you found match your expectations?
3. Why do you think it is important to collect your own empirical data, rather than relying on secondary literature? Did you find the empirical work (interviews, questionnaires, case study) easier or more difficult than you expected?
4. In what ways could the results of your project work be useful to information systems practitioners who are working in the area?
5. What do you feel are the main limitations of your project? Could they have been overcome if you had done the project differently or had more time and resources?
